28 MANDELA'S GUN DOCUMENTARY PROJECT

FROM THE EDITOR

It was yet another opportunity to showcase the role of the museum in the society as the Botswana National Museum celebrated 2014 International Museum Day on 20th May 2014. Commemorated under the theme *Museum Collections Making Connections*, the occasion was a refresher to museum users and the general public on the mandate of National Museum of conserving, protecting and promoting Botswana's heritage for public education and enjoyment. This time around, museum collections were at the centre of the celebration with the National Museum showcasing the national heritage collection it holds in custody. The collection comprises of ethnographic, historical, archaeological, zoological, botanical, and geological objects. From the national heritage collection we can understand the environment in Botswana and the people who make up the nation. Museum collections are important in contributing to the progressiveness of societies, contrary to the old belief or perception that they are usually old and useless objects they are reference points for science, technology, economic development and social organization. It is still high in the agenda of the Botswana National Museum to make the collection more accessible to users for education and enjoyment. The new permanent exhibition at the National Museum will see its initial implementation in 2015-16 with the intention to complete it in three years. This is a project funded to the tune of P38Million Pula.

Our cover page is the picture of the Okavango Delta, *Our Heritage Our Pride* which rightfully assumed its World Heritage status on 22nd June, 2014 in Doha, Qatar at the 38th Session of the UNESCO World Heritage Committee as the 1000th property or site. It would have been a big omission if this edition did not highlight this, one of Botswana's greatest achievements in sustainable heritage management. The inscription of the Okavango Delta as a World Heritage Site is a result of a long and laborious journey undertaken by all stakeholders in sustainable heritage management. We take this opportunity to thank and commend all the stakeholders for this kind of teamwork which has yielded positive results!!!!!.

Ipelelo letsatsi la mafatshe-fatshe la metlobo ya ditso e ne e fa Lekala la Ditso Le Ditsa-Tlholego sebaka se sengwe sa go supa seabe sa lone mo matshelong a setshaba se le se direlang.

Letsatsi le le ne le ipelelwa ka fa tlase ga setlhogo se se reng " Matllotlo A Metlobo Ya Ditso A Rotloetsa Kgolagano ", mme e ne e le tiragalo e e neng e bula babogedi matlho go ba sedimosetsa ka matlotlo a lekala leno le a sireleditseng mo boemong jwa setshaba. Bangwe e ka tswa e ne e le lantlha ba nna le tshono ya go ithuta ka matlotlo a mme jaanong ba na le tsholofelo ya gore ba tla tswelela ba bona ditshupo tsa mofuta o mo isagong. Ka jaana maano a sa site, go sita a loso, tsholofelo ke gore go tla nna go batliwa metlhala e e farologanyeng ya go isa kitso kwa setshabeng ka maikaelelo a go se ruta le go fetisetsa setso sa rona Batswana kwa dikokomaneng tse di tlang

Go ka nna molemo thata fa badirisi ba ditirelo tsa rona jaaka barutabana,baithuti, badira-dipatlisiso le bajanala ba ka tsaya matsapa le bone ba re etela go itse go le gontsi ka gore ba ka dirisa jang matlotlo a mo go tsa thuto le mo go ikgakololeng ditso tsa rona tse di re kaelang gore re tswa kae re le setshaba. Go itse kwa re tswang teng go ka re thusa go betla tsela ya bokamoso.

Pele ga letsatsi le la mafatshe-fatshe la metloboya ditso go ne ga tshwarwa bokopano jwa dithutano bo itebagantse le setlhogo sa letsatsi leo. Bokopano jo e ne ya nna thotloetso mo bodireding jwa lekala le le mo setshabeng go tswelela ka tshwaragano le kamogano dikitso. Ke gone ka moo re fang babadi ba rona botlhe sebaka sa go anywa kitso e e neng e amogwanwa mo bokopanong joo ka go e ipalela mo kgatisong e.

Kgatiso e e ne e tla bo e sa wela fa mo go yone re ne re sa supa boipelo jo bo tsisitsweng ke go bo makgobokgobo a Okavango jaanong a kwadisitswe jaaka letlotlo la mafatshefatshe la tlholego. Kwadiso e ke nngwe ya ditiro tse dikgolo tse lekala le le di kgonneng mo ngwageng ono. Re tsaya sebaka se go leboga ba na le seabe le Batswana botlhe ba ba neng ba eme nokeng go diragadiwa ga kwadiso e. Betsho, re ka bo re sa kgona go fitlha kwa bokhutlong jwa leeto le, le le thata, kwa ntle ga lona. Mo nakong eno, ka ntlha ya maiteko a otlhe a a kopanetsweng, setshaba se ipela ka go nna le letlotlo la bobedi la mofuta o mo lefatsheng leno. Le fa go ntse jalo, go santse go na le tiro e ntsi e e santseng e re eme pele rotlhe, ya go tlhomamisa gore makgobokgobo a a tlhokomelesegile gore a seka a latlhegelwa ke tlotla e e kalo e a e filweng.

Tse dingwe tse lekala leno le ka lebang kwa morago la bona ngwaga ono e ne e le o montle ka go bo le di kgonne ke pulo semmuso ya ditlamelo tsa bojanala kwa Mogonye le go amogela matlo a le mabedi kwa Gerald Estate kwa Francistown go a dirisa jaaka ofisi le bonno. Se ke sesupo sa gore lekala le le a gola jaaka le ntse le tlhoma diofisi kwa mafelong a mangwe mo lefatsheng le go katlolosetsa ditirelo tsa lone kwa go one. Gape go supagala fa maiteko a lone a go tshwaragana le setshaba mo tlhokomelong ya mafelo a a nang le bokao jwa ngwao le tlholego le tlhabololo ya one gore a dirisediwe bojanalaa ntsha maduo a a molemo.

BOTSWANA MUSEUMS AND ACCESSIBILITY IN THE DIGITAL AGE

BATHUSI LESOLOBE *CONSULTANT: MANAGING DIRECTOR, LOSHALABA THEATRE CONSULTANTS (PTY) LTD*

Characteristics of a Quality Museum

Professor Stephen Weil of Smithsonian Institution identifies four characteristics of a quality museum as; purpose, capability, effectiveness and efficiency.

Purpose: It has a clear mandate and is fully accountable for the dispensation of its duties towards the fulfillment of that mandate.

Capability: It has the required knowledge base; personnel and financial resources to be able to perform its duties to the satisfaction of its customers.

Effectiveness: It is able to satisfactorily achieve its goals.

Efficiency: It is able to achieve its goals with ease.

The World is at our Fingers

Botswana is one of the countries in Africa with a high level of internet connectivity with a considerable portion of the population having computers at home, cellphones and computers at work. There has also been an increase in the use of various forms of social media such as Myspace, Facebook, Twitter, Badoo, whatsapp, Linkedin which are a result of the Digital Age.

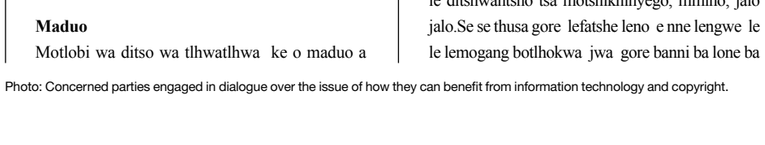

The Digital Age

This refers to the shift from economy being driven by industrial hardware to it being driven by information sharing through computerization. This has enabled people to share audio visuals, music and pictures which are in an intangible form. The economy therefore becomes service oriented economy with people's participation in events and circumstances at its core.

© Copyright and Museums

WIPO Publication No. 489(E) takes the position that *Copyright protection is above all one of the means of promoting, enriching and disseminating the national cultural*

Museum Collections make Connections

Moprofesa Stephen Weil wa Yunivesithi ya Smithsonian o lemogile dintlha di le nne tse di dirang motlobo wa ditso gore e nne wa tlhwatlha, mme tsone ke tse di latelang.

Maikaelelo

Motlobo wa ditso o o gatetseng pele ke o o nang le maikaelelo a a tsepameng a o neng o simolodisiwa go lebilwe gore a fitlhelelwe. Ka go rialo o na le maikarabelo a go tlhomamisa gore ditiro tsa one di a diragadiwa gore o fitlhelele one maikaelelo ao.

Bokgoni

Motlobo wa ditso wa go nna jalo gape ke oo nang le ditsompelo tsa bodiredi le madi le dikitso tse di kwa godimo go tswa mo bodireding tse di ka thusang gore o dire ditiro tsa one ka thelelo le go kgotsofatsa setshaba se o se thusang.

Maduo

Motlobi wa ditso wa tlhwatlhwa ke o maduo a tiro ya one a leng mo pontsheng ebile go bonala gore o fitlhelela tema e o e itshegetseng.

Matsetseleko

Motlobo wa go nna jaana ke o o dirang tiro ya one ka matsetseleko o bo o kgona go diragatsa maikaelelo a one motlhofo.

Lefatshe la Botswana ke lengwe la mafatshe a Aferika a a gatetseng pele mo go inaakanyeng le tiriso ya maranyane a ditlhaeletsanyo ka sebalamakgolo.Bontsi jwa batho mo lefatsheng leno ban a le dibalamakgolo mo malapeng, megala ya letheka le dibalamakgolo kwa ditirong. Gape go nnile le koketsego ya batho ba ba dirisang maranyane a tlhaeletsanyo ka dibalamakgolo a a tshwanang le facebook, Myspace, Twitter, Badoo, whatsup le Linkedin.

Go lebega go nnile le phetogo mo tirisong ya ditlhaeletsanyo tsa maranyane go tla mo seemong se batho ba kgonang go amogana dilo di tshwana le ditshwantsho tsa motshikhinyego, mmino, jalo jalo.Se se thusa gore lefatshe leno e nne lengwe le le lemogang botlhokwa jwa gore banni ba lone ba

heritage. A country's development depends to a very large extent on the creativity of its people, and encouragement of individual creativity and its dissemination as a sine qua non for progress.

Museums should be able to have exclusive and assignable rights for literary and artistic property or collection in their custody. They can then ensure that the authors of literary and artistic works enjoy the economic and moral rights of their works. Article 3.2 of Botswana's Copyright Act protects 11 groups of literary and artistic works. Six of these, namely; writings, oral works, fine art, photographic works, applied art and audio visuals form the core of museum collections and all these works are in high demand over the internet.

Copyright stimulates and promotes national cultural heritage and contributes to economic advancement through licensing content, sharing of profits with rights owners and ploughing back the proceeds into programming. Integrity of the content comes as a result of content authentication by the community. Digital Rights Management (DRM) will ensure management of access to the collections over the internet.

Challenges

Lack of Financial resources:

The development and maintenance of interactive websites is costly but partnership with private companies can ease the financial burden.

Lack of National Copyright Policy:

The policy would give guidance towards management of and access to copyright assets in museums.

Lack of Expertise:

No fully fledged copyright studies have been undertaken in the country and the few available experts in the field have been absorbed by other sectors.

Digital Rights Management

Technological means to control, track and provide or deny access to content in the digital environment, identify the owner of content, control access to the content, enable the owner to track how content is used. Museums can offer different packages to its communities. Owners of collections can be given special dispensation. Researchers and student can pay subsidized fees for using those means to gather information and business entities can be licensed to gain profits from offering such services. Digital Rights Management must be incorporated into the national copyright policy.

The utilization of copyright can make it easier for museums to establish connections with their stakeholders through their collections. Currently it is difficult for users to access what museums have to offer because of capacity and this leads to inefficiency and ineffectiveness.

Botswana is digitally connected and museums in Botswana must take advantage of that. Copyright offers opportunities for cultural heritage promotion and preservation for economic gain. Digital Rights Management is a solution to the challenges facing museums in Botswana in the Digital Age.

Left: Utilization of information technology can go a long way in eliminating the use of manual documentation, which is seen being put into practice in the above setting.
Right: The documentation of information on items displayed in the museum (such as this ox-wagon) can be made easier by computerization.

tseye karolo mo go tse di diragalang mo lefatsheng la bone, segolo bogolo tse di amanang le go ntsha ditirelo tsa tlhwatlhwa.

Go tlhokafala gore metlobo ya ditso e nne le tshwanelo ya semolao ya go nna beng ba dikgatiso le ditiro tse dingwe tsa botaki le bodiragatsi tse di ka fa tlase ga tlhokomelo ya yone. Ka go rialo metlobo ya go nna jalo e ka thusa batlhami ba ditiro tse go akola maduo a tsone.Dingwe tsa ditiro tse ke tsa bokwadi, kamogano ya kitso ka puo ya molomo, botaki, botshwantshi, ditshwantsho tsa motshikhinyego jalo jalo. Bontsi ja ditiro tse ke bontlha bongwe jwa konokono jwa tse di phuthilweng le go somarelwa mo metlobong ya ditso. Go botlhokwa go sireletsa ditshwanelo tsa semolao tsa go nna beng ba ditiro le dithamo tse ka ke tsela nngwe ya go rotloetsa go fetisediwa ka mokgwa o o lolameng ga boswa jwa ngwao le tlholego kwa dikokomaneng tse di tlang go sena yo o rontshiwang go akola maungo a ditiro tsa gagwe.

Go dira jaana go thusa gore go kgone gore go aroganwe dipoelo tsa ditiro tse le batlhami ba tsone mme se se tokafatse seemo sa itsholelo sa batho ka bongwe ka bongwe le sa setshaba ka kakaretso.

Dikgwetlho

Tlhaelo ya madi

Go tokafatsa tiriso ya maranyane a ditlhaeletsayo ka sebalamakgolo go lopa madi a mantsi mme fa tiro e e ka tshwaraganelwa le dikompone le makgotla a mangwe a a ikemetseng ka nosi, e ka nna motlhofo.

Go Tlhoka Tsamaiso E E Mabapi Le Ditshwanelo Tsa Semolao Tsa Go Nna Beng Ba Dithamo

Go nna le tsamaiso e e mabapi le go nna le ditshwanelo tsa semolao tsa go nna beng ba dithamo go ne go ka thusa mo go tsamaisiweng sentle ga dikgang tsa mofuta o mo metlobong ya ditso.

Letlhoko La Dikitso

Ga go na dipatlisiso dipe tse di rileng tse di setseng di dirilwe mo lefatsheng leno go anya dikitso mo dikgannyeng tsa ditshwanelo tsa semolao tsa go nna beng ba dithamo. Mo godimo ga moo go na le baitseanape ba se kae fela mo dikgannyeng tse mo lefatsheng leno. Fa go na le dikitso le bokgoni jo bo tlhokafalang, metlobo ya ditso e ka kgona go fa bathami ba ditiro tse di farologanyeng tse di ka fa tlase ga tlhokomelo ya yone ditirelo tse di farologanyeng go ba thusa go latedisa le go nna le taolo mo go dirisiweng ga dithamo tsa bone. Batho ba tshwana le badira dipatlisiso le baithuti ba ka duedisiwa ditlhwatlhwa tse di kwa tlase fa ba dirisa dithamo tse mo dipatlisisong tsa bone. Go dira jaana go ka thusa metlobo ya ditso go nna le kgolagano le bathami ba ka ntlha ya ditiro tsa bone tse metlobo e di ba tlhokomeletseng. Metlobo ya ditso e ka dirisa maranyane a ditlhaeletsanyo ka dibalamakgolo go ikgolaganya le setshaba se e se direlang , e anamisa kitso ka boswa jwa ngwao le tlholego mme e netefatsa gore batho ba ba duleng ka dikitso tse di anamisiwang tseo ba amogela dipoelo tsa ditiro tsa bone.

OKAVANGO DELTA A WORLD HERITAGE SITE

BY BERLINAH MOTSWAKHUMO

The aerial view of the Okavango Delta.

The Okavango Delta was listed as the 1000th United Nations Educational, Scientific and Cultural Organization (UNESCO) World Heritage Site on 22nd June 2014 at the 38th Session of UNESCO World Heritage Committee in Doha, Qatar. This was in fulfillment of Botswana's obligations to the 1972 World Heritage Convention.

The Okavango Delta was among 36 other sites that were being considered for listing. The listing was accepted by the head of the Botswana delegation to the Session, The Minister of Environment, Wildlife and Tourism Hounarable Tshekedi Khama, who emphasised that Botswana would continue to create a conducive environment for the protection and integrity of her sites while ensuring that communities derive benefits from these sites. He took the opportunity to *thank the people of Ngamiland for taking care of the Okavango Delta, their participation and support in the nomination process and assured them that government will continue working with them to maintain the integrity of the Okavango Delta and ensure that they benefit from it.* Minister Khama also pointed out that the challenge now is to live up to the expectations of the listing regarding the conservation of the Okavango Delta.

The Okavango Delta was listed in fulfillment of the criteria:

- One of the few inland deltas that flood in the dry season, a unique hydrological event that defines this unusual system. Formed by the earth's geological processes and forces, it burst into a green oasis wonderland during the harsh, dry and dusty winter season.
- It is one of a very few vast natural, scenic, spectacular, alluvial systems from which the waters never reach the sea, draining instead into the desert sands of the Kalahari basin and the extensive Makgadikgadi Salt Pans.
- An outstanding example of ecological and hydrological processes. It supports an outstanding variety of forms of life including over 1000 species of plants, 130 species of mammals, 480 species of birds, 90 species of fish as well as a host of reptiles, invertebrates and amphibians.
- It is a core habitat for many threatened and endangered species including wild dog, cheetah, lion and sitatunga antelope.

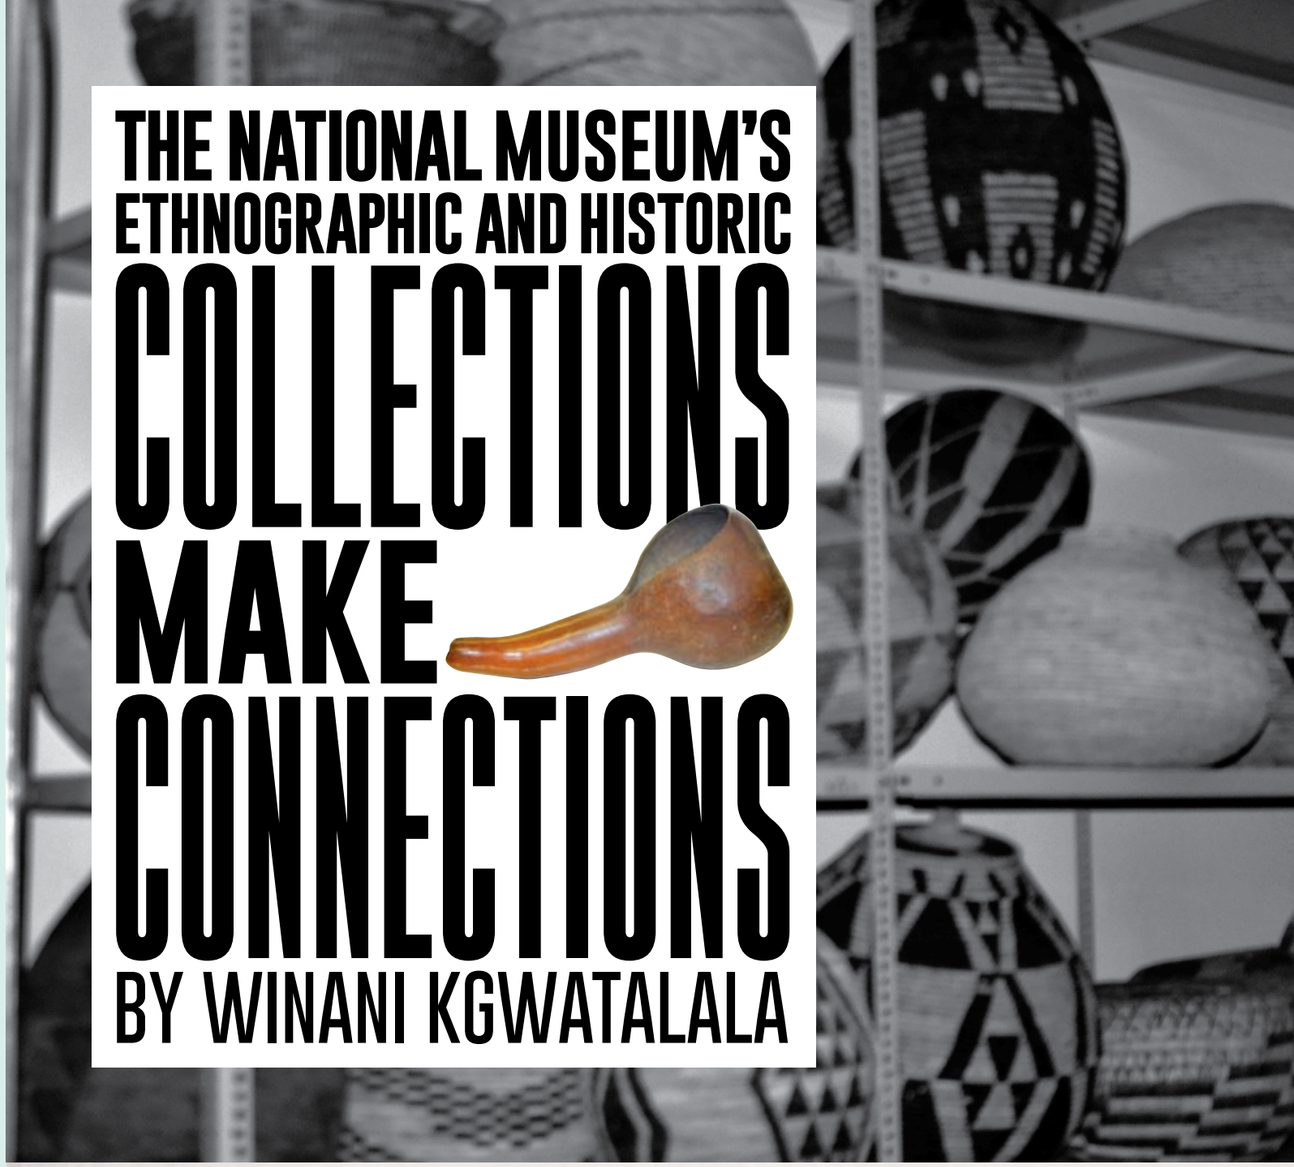

Makgobokgobo a Okavango jaanong a kwadisitswe jaaka lefelo la bosekete la mafatshefatshe le le nang le bokao jo bo faphegileng jwa ngwao le tlholego . Tshwetso ya go dira jalo e tserwe . kwa bokopanong jwa bo masome mararo le borobabobedi jwa lekalana la lekgotla la ditshaba le le itebagantseng le tsa thuto, boranyane le ngwao kwa Doha, Qatar, kgwedi ya Seetebosigo e le malatsi a le masome a mabedi le bobedi. Se e ne e le go diragatsa maitlamo a lefatshe la Botswana jaaka e le lengwe la mafatshe a a saenneng tumalano ya mafatshefatshe ya tshomarelo boswa jwa ngwao le tlholego.

Makgobokgobo a Okavango e ne e le lengwe la mafelo a le masome mararo le borataro a a neng a sekasekwa gore a a ka kwadisiwa. Go kwadisiwa ga makgobokgobo a go amogetswe ke Tona wa Tikologo, Diphologolo le Bojanala, Tshekedi Khama yo o neng a bolela gore lefatshe la Botswana le tla tswelela le netefatsa gore le mo seemong se se siametseng tshomarelo ya mafelo a a kayang boswa jwa ngwao le tlholego mme le ntse le tlhokometse gore a solegela banni ba mafelo a a mo tikologong ya one molemo. Gape o tlhalositse gore go setse go na le tswelelopele mo go tokafatseng tshomarelo ya mafelo a mofuta o, a a setseng a kwadisitswe, a a fa sekai ka dithaba tsa Tsodilo. O bile a supa gore kgwetlho e e saletseng lefatshe leno ke go diragatsa se se solofetsweng mo go lone fa go tla mo tshomarelong ya makgobokgobo a a sa tswang go kwadisiwa a.

Makgobokgobo a ke mangwe a a seng kae mo lefatsheng ka bophara a a tshelang ka paka ya mariga. Ke lefelo le le kgabang ka botala jwa matlhare ka paka ya komelelo le diphefo mme le nne lentle thata go ka kgatlha leitlho. Metsi a one ga a fitlhe kwa lewatleng mme boemong jwa seo a nwelelela mo motlhabeng wa Kgalagadi le mo Makgadikgading. Mo go one go fitlhelwa mefuta ya dinonyane e le sekete, mefuta ya ditlhapi e le masome a roba- bongwe mmogo le digagabi , ditshidi tse di senang lerapo la mokwatla le ditshidi tsa metsi ka dipalo tse dintsi. Gape mo go lone go fitlhelwa diphologolo tse di gomagomediwang ke go nyelela jaaka matlhalerwa,matlotse, ditau le sitatunga.

THE NATIONAL MUSEUM'S ETHNOGRAPHIC AND HISTORIC COLLECTIONS MAKE CONNECTIONS

BY WINANI KGWATALALA

The scenic view of the waters of the Okavango Delta.

Introduction To Ethnology Division

The mandate of the Ethnology Division is to collect, conserve, conduct research and to disseminate information on a wide range of heritage issues for educational purposes, leisure as well as for sustainability. The Division generally derives its existence, purpose and importance from its ethno-historic collections in permanent storage areas. It is also the s custodian of over 9000 ethnographic as well as more than 2000 historical objects. The collection represents cultures from across Botswana with just a small portion coming from elsewhere.

Four Units constitute the Ethnology Division; Conservation, History, Ethnography and Radio.

Conservation Unit is responsible for safekeeping, implementation of preventive strategies and restoration of museum artifacts.
The Unit ie responsible for the safekeeping or protection of artifacts; assesses the risk factors that may endanger the collections as well as monitoring the risk factors and the environment in which the collections have been stored.
Implements preventive strategies for the overall care of collections and the mimization of the effects of disasters and emergencies.
Conservation unit implements intervention measures in this case, restoration or practical repair and treatment or consolidation and stabilization of the artifacts.
Manages the deterioration and risk factors; temperature, relative humidity, mould, pests, fire. undertakes surveys to assess the condition of artifacts.

History Unit undertakes research, accession, register and document the history collection.
Research is on various topics relating to the history of Botswana from colonial times to the post -independence period.
Collecting and accessioning historical both colonial and post- colonial artifacts relating to Botswana, for example; stamps and telecommunications equipment.
The unit utilizes historical artifacts to come up with thematic exhibitions which serve to disseminate information about the history and heritage of Botswana.

Ethnography Unit is responsible for research, accessioning, registration and documentation of the ethnographic collection.
Research is on various topics relating to the ethnography of Botswana, that is, material related to Botswana's cultural heritage. The unit puts together thematic exhibitions using ethnographic artifacts to make them accessible to the society and also loans artifacts to various users.

Documentation Unit conducts the manual documentation, that is, cataloguing, indexing and registration of collections as well as electronic documentation using DataEase software.

Radio unit undertakes research, collects and documents oral traditions of various ethnic groups that make up the nation of Botswana as well as other heritage issues. The research information is disseminated to the public through the *Motswedi wa Ditso* radio programme broadcast on radio Botswana every Sunday at 18:45hrs.

COMMEMORATION OF INTERNATIONAL MUSEUM DAY 2014

BY BERLINAH MOTSWAKHUMO

Thomo kgotsa maikarabelo magolo a lekala na la ditso tsa merafe mo lekaleng la Ditso Le Ditsa-Tlholego ke go phutha didirisiwa tsa ngwao tsa merafe e e farologanyeng ya Botswana le go di baya di babalesegile kgatlhanong le tshenyego. Gape lekalana le le dira dipatlisiso ka ditso tsa merafe le go anamisa maduo a dipatlisisiso tseo mo setshabeng.Kitso e e ka dirisiwa mo mananeong a thuto , mo itosong bodutu le gone tota go e fetisetsa kwa dikokomaneng tse di tlang kwa morago
Tiro ya lekala le e ikaegile thata ka tsone didirisiwa tse di phuthilweng gore di tle di supiwe. Le tlhokometse didirisiwa tsa go nna jaana di ka nna dikete tse di ferang bongwe tse di supang le tse di kayang matshelo a merafe ya Botswana ka go farologana le di le dikete tse pedi tse di kayang ditso.. Ke di se kae fela tse di kayang dingwao le ditso tsa merafe ya mafatshe a sele.
Lekala le le na le makalana a le mane a a latelang:

1. Lekalana La Tshireletso

Lekalana le le itebagantse le go tswa ka metlhale e e farologanyeng ya go sireletsa didirisiwa tse le di tlhokometseng gore di seka tsa senyega ga mmogo le go di busetsa mo seemong se se lebanyeng fa go ka diragala gore di senyege. Ke lone le le nang le boikarabelo jwa go fokotsa kgonagalo ya gore didirisiwa tse di senyege fa go ka nna le diemo tsa tshoganetso jaaka dibetso tsa tlholego.Le tlhokomela pabalesego ya didirisiwa tse ka nako ya di tsamaisiwa go tswa mo lefelong le le rileng go ya kwa go le lengwe, ka nako ya fa di supilwe le fa di beilwe mo mabolokelong a tsone.Dingwe tse badiri ba lekalana le ba di elang tlhoko gore di seka tsa senya didirisiwa tse ke selekanyo sa mogote se se sa di siamelang, diji, motoutwane, molelo le selekanyo sa bongola mo phefong. Badri ba ba nna ba keleka seemo se didirisiwa tse di leng mo go sone ba bo ba kwala dipego. Ka tsela e e ntseng jalo ba kgona go lemoga motlhofo fa go na le botlhabetsi bongwe jo bo ka bakang tshenyo le go tsaya kgato go bo lwantsha kgotsa go busetsa didirisiwa tse mo seemong se se amogelesegang fa e le gore di ne di setse di amilwe ke tshenyo.

2. Lekalana La Ditso

Tiro kgolo ya lekalana le ke go dira dipatlisiso, go phutha le go kwadisa didirisiwa tse di kayang ditso.Badiri ba lekalana le ba batlisisa ka dikgang tse di farologanyeng tse di amanang le ditso tsa lefatshe leno go tswa ka nako ya puso ya bokolone go tsena mo pakeng ya morago ga boipuso.Gape ba phutha didirisiwa tse di supang tsone ditso tse go ralala lefatshe leno ka bophara. Dingwe tsa tsone ke ditempe, didirisiwa tsa ditlhaeletsanyo jalo jalo. Tiro e nngwe ya lekalana le ke go dira ditshupo tse di kayang ditso go dirisiwa tsone didirisiwa tse di kokoantsweng tse. Se se direlwa go ruta setshaba ka ditso tsa lefatshe leno.

3. Lekalana La Ditso Tsa Merafe

Lekalana le lone le dira dipatlisiso ka ditso, matshelo le dingwao tsa merafe ya Botswana ka go farologana le gone go phutha didirisiwa tse di kayang tsone dingwao tseo.Didirisiwa tse di a kwadisiwa go bo go dirwe mekwalo e e rutang ka tsone.Badiri ba lekalana le ba dira ditshupo tse di kayang dingwao tsa merafe e, ba dirisa tsone didirisiwa tse ba di phuthileng. Gape ba thusa setshaba ka go adima baikopedi didirisiwa tse fa le bone ba eletsa go dira ditshupo tse di nang le bokao jwa mofuta oo.

4.Lekalana La Seromamowa.

Lekalana le le dira dipatlisiso le ba le dira dipotsolotso tse di mabapi le ditso le matshelo a merafe ya Botswana ka go farologana le bo le di gatisa le go di anamisa mo seromamoweng, mo thulaganyong e e bidiwang Motswedi Wa Ditso. Dipotsolotso tse gape e ka nna ka dikgang tse dingwe fela tse di amanang le boswa jwa lefatshe leno jwa ngwao le tlholego le ka ditiro tse di farologanyeng tse lephata le di dirang. Thulaganyo e e gasiwa mo seromamoweng beke le beke.

Museum collections have been described as the essence of a museum because they determine the type of Museum to be established. This was said by the Minister of Environment, Wildlife and Tourism, Honourable Tshekedi Khama when officially opening the 2014 International Museum Day commemorations under the theme "Museum Collections Make Connections". He gave the example of the Botswana National Museum, which is a general Museum because it has natural history, archaeological, ethnographic and historic collections.

He said collections consist of museum objects or artifacts acquired by way of field collection, loans, purchases and donations. He informed his audience that these objects are collected because they of their unique characters which form the core of the museum's activities for exhibition, education, research and enjoyment.

"The theme Museum Collections Make Connections aims at improving traditional methods of engagement adopted by museums in order to respond to the needs of their customers and stakeholders" he said.

Minister Khama pointed out that museums exist in a dynamic world and are consistently challenged to rethink their traditional mandate and find ways of connecting visitors with collections. He also explained that collections are widely varied as they can be cultural, historical or natural objects which store the memories or evidence of the environment, the world's peoples, their cultures, their dreams and hopes.

Botswana National Museum Collection:

National Botanical Garden - a collection of 600 indigenous living plant species which are rare, endemic, threatened and useful; for example, plants that have medicinal uses.

National Herbarium - a collection of plant specimens from Botswana, which are preserved mostly in dried form and mounted on a paper for scientific research and future reference. The collection is made up of approximately 10 000 specimens.

Zoology collection - is composed of the vertebrate and invertebrate animal specimens. The vertebrate collection is made up of about 3000 specimens which include mammals, fish, amphibians, reptiles and birds while the invertebrate category consists of about 12000 dried insect specimens.

Geology collection is made up of objects or artifacts used as a basis for studying the earth, its history, present and its future conditions. The collection has a total of 389 specimens which are mainly fossils. Other specimens are rocks and meteorites which are rocks from other planets.

Ethnology-historic collection - is the largest with 12 000 objects. The objects represent the cultures and peoples of Botswana in relation to the environment as well as objects which represent important time periods in the history of Botswana, especially those from the colonial period.

Archaeology collection, is the remains of material culture or objects or artifacts left behind by people of long ago. Another component of the archaeology collection is the monuments, which are in-situ or in position collections in the form of natural objects or formations, relics and artifacts found on site.

The Department took the opportunity during the commemoration to reward employees for good performance in the financial year under the following categories: Innovation and Creativity, District Award, Long Service, Excellence and the Director's Award.

Since they were the first Departmental Awards, those who did not receive any award were encouraged to strive for better results, those who received awards were congratulated and urged them to keep up the good performance and to be exemplary.

Matlotlo a a kgobokanngwang ke metlobo ya ditso a kailwe e le one konokono mo tirong ya metlobo ya ditso ka e le one a a laolang gore motlobo wa ditso o a fitlhelwang mo go one e tla nna wa mofuta ofe. Se se builwe ke Tona Wa Tikologo, Diphologolo Le Bojanala jaaka a ne a bula semmuso segopotso sa letsatsi la ditshabatshaba la metlobo ya ditso, ka fa tlase ga setlhogo se se reng "Matllotlo A Metlobo Ya Ditso A Rotloetsa Kgolagano"

Tona o ne a bolela gore Motlobo Wa Ditso wa Botswana ke o o supang matlotlo a ka go farologana ga one jaaka go na le matlotlo a tlholego, masalela a kepo ditso, matlotlo a a supang dingwao tsa merafe e e farologanyeng ya Botswana le matlotlo a ditso tsa lefatshe leno. O kaile gore matlotlo a a kgobokanngwa ka go tsaya maeto go ya go phutha dilo tse mo nageng kgotsa mo bathung ba ba nang le tsone, go di adimiwa mmogo le go di abelwa ke beng ba tsone .O tsweletse a tlhalosa gore matlotlo a a tsewa le go sirelediwa ka ntlha ya boleng jwa one jo bo kgethegileng le go bo mangwe e le one fela a mofuta wa one. O ne a re se ke sone se se fang bokao ditshupo, dipatlisiso le thuto tse e leng tsone ditirelo tsa mmanmang tse motlobo wa ditso o di neelang setshaba.

"Setlhogo se se reng "Matlotlo A Metlobo Ya Ditso A Rotloetsa Kgolagano" go ikaeletswe ka sone go tokafatsa mokgwa wa tlwaelo o metlobo ya ditso e ntseng e golagana le batho ka one, ka maithomo a go tsibogela se tlhokwang ke setshaba se se e etelang.' Ga tshwaeloa jalo Tona Khama.

O ne gape a supa gore metlobo ya ditso e tsweletse le tiro ya one mo lefatsheng le le fetogang nako le nako mme ka jalo e lebanwe ke kgwetho ya gore e akanye sesha ka maitlamo le thomo ya one. O boletse gore go botlhokwa gore metlobo ya ditso e battle ditsela tse disha tsa go golaganya baeng ba ba e etelang le matlotlo a e nang le one.O bile a kaya gore matlo a a farologanye ka jaana e ka nna a ngwao, a ditso kgotsa a tlholego.

Tona Khama o ne a tlhalosetsa batsena moletlo o o ka matlotlo a a farologanyeng a a tshegeditsweng le go sirelediwa ke motlobo wa ditso wa Botswana mo boemong jwa setshaba sa lefatshe leno. O ne a re go na le tshingwana ya dimela di ka nna makgolo a marataro tsa Botswana tse di gamagomediwang ke go nyelela ka go bo di sa bonale motlhofo, di bonwa mo mafelong a a rileng fela kgotsa di le mo diphatseng tsa go fela lesika. O ntshitse sekai e le dimela dingwe tse di dirisediwang kalafi.

O buile ka mofuta o mongwe wa matlotlo e leng a dimela tsa Botswana tse di omeleditsweng di ka nna dikete tse di lesome.. O ne a re dimela tse di dirisediwa go dira dipatlisiso. Matlotlo a mangwe a a neng a a neng a supa fa a le teng ke a diphologolo tse di senang lerapo la mokwatla le tse di nang le lone, tse di ka nnang dikete tse tharo ka palo. O rile mofuta o wa matlotlo gape o akaretsa ditlhapi le diphologotswana tse dingwe tsa metsi,digagabi, dinonyane mmogo le ditshidinyana di le dikete tse di lesome le bobedi "Matlotlo a mangwe a tlholego one ke a a tswang mo go ithuteng ga baitseanape ka ga ditso tsa tlholego ya lebopo mmogo le bokamoso jwa lone. Bontsi jwa matlolo a ke matlapa a a neng a fetoga popego ka ntlha ya diphetogo tse di neng di diragalo mo lebopong mmogo le a a tswang kwa dintlheng tse dingwe tsa lebopo kwa ntle ga lefatshe" Tona a tlhalosa.

Matlotlo a mangwe a go builweng ka one mo letsatsing leo ke a ditso tsa lefatshe leno,bogolo jang ka nako ya bokolone, le a a supang dingwao tse di farologanyeng tsa Batswana. One Tona o ne a bolela fa a akaretsa disupiwa di ka nna dikete di le lesome le bobedi.

O ne a garela tlhaloso ya gagwe ka matlotlo a ka go bua ka masalela a kepo ya ditso a a neng a re bontsi jwa one ke masalela a tse di tlogetsweng mo mafelong a a farologanyeng ke batho ba bogologolo. E ntse e le mo go one mofuta o wa matlotlo , o kaile fa go na le mafelo a a nang le bokao jwa ngwao le tlholego. Mangwe a one ke ditsa tlholego jaaka magaga, dithaba, metswedi ya tlholego ya metsi jalo jalo, fa a mangwe e le one mafelo a go fitlhelwang masalela a a tlogetsweng ke batho ba ba neng ba nna mo go one bogologolo mme a supa ka fa ba neng ba tshela ka teng..

Kwa bokhutlong Tona o ne a itsise bamoreetsi gore puso ya Botswana e tsweletse ka go batla metlhale e mesha ya go tokafatsa tshomarelo ya boswa jwa lefatshe leno ja ngwao le tlholego. O boletse fa mo nakong eno go tsweletswe le go dira dithulaganyo tsa gore lefatshe leno le saene molao wa mafatshefatshe wa thibelo ya go rekisiwa le go amoganwa mo go sa letlelesegeng ga matlotlo a ngwao.

Lekala le la Ditso Le Ditsa-Tlholego le ne gape la tsaya nako e ya boipelo go fa badiri ba lone ba ba gaisitseng, ditlotla tse di neng di kgaogantswe ka makgamu a a latelang

-Ba ba supileng bokgoni jwa go tla ka megopolo e mesha le go e tsenya mo tirisong
-Ba ba gaisitseng kwa dikgaolong tse ba direlang kwa go tsone.
-Ba ba dirileng ka bokgabane mo tirong ya bone ya letsatsi le letsatsi.
-Ba ba diretseng lekala le ka boineelo ka lebaka le le leele
-Tlotla e e ntshiwang ke mookamedi wa lekala.

E re ka se e ne e le tshimolodiso ya tiro e ya go ipelelela bokgoni jwa badiri, e jaanong e tla nnang e tshwarwa ngwaga le ngwaga, boeteledipele jwa lephata le jwa lekala le bo ne jwa kgothatsa ba ba sa fiwang tlotla epe gore ba seka ba nyema moko mme ba itsolopaganye gore ba ntshe maduo a a botoka mo tirong, mme ba tle ba kgone go bona tlotla ya go nna jalo mo isagong. Bagolwane ba ne gape ba akgola ba ba neng ba lebogelwa tiro ya bone e ntle mme ba ba rotloetsa go tshwara ka thata le go tswelela ba le sekai mo badiring ba bangwe.

D'KAR MUSEUM COLLECTIONS: SAN CULTURAL HERITAGE

DR MAITSEO M.M. BOLAANE (UB) AND GAKEMOTHO TIKHWEBE SATAU (KFO)

D'kar Cultural Centre

We respect
our culture, communication, environment
and sharing with integrity

D'Kar (Ghanzi District)

D'Kar, approximately 30 km away from Ghanzi Township, situated on private land in Ghanzi Farming Block off the Ghanzi to Maun main road. In terms of hospitality for tourists, accommodation is offered by hotels such as Kalahari Arms Hotel and Tautona Lodge. There is also the Ghanzi Craft which sells souvenirs and memorabilia. Most of the farms around the area are gradually embracing ecotourism in the form of game tracking , art & craft production as well as traditional dance.

People of D'Kar

Dkar is a Predominantly San (Basarwa) settlement but there is also the Herero and Bakgalagadi (some of whom have intermarried with San people and now identify themselves as the Basarwa) communities. The people of D"kar mainly speak the Naro, a San language, hence a Naro language project geared towards translating the Bible and other important publications especially booklets on health issues including HIV/AIDS and Tuberculosis into the Naro language.

Kuru Family Of Organisations

Development organisation (NGO

The livelihood challenges faced by the San communities in the Ghanzi farming block since the 1980s, led to the establishment of the Kuru Development Trust through the support of the Dutch Reformed Church. D'kar settlement emerged as a small farming community with several income generating projects amongst them the art project, museum and cultural centre and a training centre.

Importance of the Kuru/ D'Kar Museum and Cultural Centre

This museum is unique because the custodians, the elders carry knowledge (oral) that has not been captured in most publications…if organised they can still share stories that embrace their social life and their traditional economies…their songs are story telling which they can share with visitors (Satau, 18 May 2014).

The Kuru /D'Kar museum is important because it is a community museum with the staff predominantly San, presenting the history, folklore, values and taboos of the San people, as well as their way of life e.g. initiation and marriage ceremonies, child-care, traditional medicine, traditional dance, indigenous knowledge on relationship with big and small game, bird life and plants. The museum presents the detailed history of D'Kar and the Ghanzi district as a whole that is; the history, life, changes and continuity" (K, Kiema, 16 May 2014).

In the past, the local community regarded the museum as a place that stores their rich history (cultural heritage and identity) for posterity. The museum adds value to the lives of the community by building confidence, self-respect and self-acceptance for the marginalized communities in the area: It also serves to promote grass roots community self-development since it can attract the tourism market for sustainable development. Kuru/ D'Kar museum collections and exhibition depict the story of people who have suffered, the majority of whom are still vulnerable, but resilient. Therefore the museum was drawing a unique interesting trajectory amongst one of the indigenous people of the world (the San people of Botswana).

It is important to preserve this institution because over time traditional cultures and creative methods are being changed and lost therefore there is need to present those still in their original form. For instance the material resources that were used in the past may have been replaced by something else. The young generation have to understand how the production of an artifact has been modified (phone interview, Satau,18 May 2014)

Tourists who travel to Maun normally pass through D'Kar to visit the Museum and appreciate the arts and crafts. Comments in the Visitor Registration Book indicate that they are interested in the arts and crafts project.

D'Kar Museum is complemented by the Cultural Centre which elderly people (volunteers) initially used it as a platform to share the history and traditional culture with the young generation. Training activities for school going children included playing musical instruments, singing and dancing, fire-making, story-telling, hunting techniques, making hunting sets, bead making, leather work and contemporary artworks including painting. The museum and the cultural centre also receives school groups from all over the country.

Today researchers from all over the world use the museum to gather information on ecology, botany, mapping, physical geography, natural resource management, food and nutrition, promotion of good health (medicinal plants for cleansing and detoxifying), anthropology, language and linguistics, sociology and history.

National strategies

In NDP 10, there is reference to efforts by the government to protect national heritage, diversify the tourism product away from dependence on wildlife as well as the expansion of tourism attractions. This includes improving tourist facilities to enhance visitorship to local museums as well as preservation of the cultural treasures in custody.

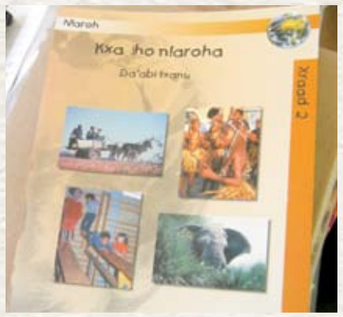

In 2012 the Kuru Family Of Organizations took over the running of the museum. Funding from the Government was terminated in 2010 due to the museum's failure to report on funds it was given as a grant. The Department of National Museum and Monuments renewed this Government support in 2013 to cover staff salaries.

Botswana to draw experience elsewhere:

UNESCO Convention (2005) On The Protection of The Diversity of Cultural Expressions (2005) affirms that cultural diversity forms a common heritage of humanity and should be cherished and preserved for the benefit of all. The Convention further recognizes the importance of traditional knowledge as a source of intangible and material wealth, and in particular indigenous knowledge systems of indigenous peoples, and its contributions to sustainable development.

One could link the discourse on San

Some of the work of artists in the D'kar area on display

cultural heritage with the UNESCO Convention (2005), which requires governments of state parties to formulate and implement cultural policies and measures for the protection and promotion of cultural diversity.

Nyae Nyae Conservancy in Namibia is a San owned entity running among other activities a museum and a craft centre for the purpose of preserving culture and attracting tourism ventures. It presents traditional culture and serves as a school for cultural heritage. The Conservancy owned by the Ju/'Hoansi people and it showcases their way of life through its Interactive programs including: real hunting experience, tracking game, singing and dancing, Bush walks, Arts and crafts and collection of traditional food and medicine.

Benchmarking could also be done at Norway (Tromso Sami Museum) Sweden (Sami museum and cultural centre as well as the Maori museums in New Zealand.

Government Support

In 2012 the Kuru Family Of Organizations took over the running of the museum. Funding from the Department of National Museum and Monuments had been terminated in 2011 due to the museum's failure to report on its operations (Narrative & Financial Report)

The Department of National Museum and Monuments renewed support- (funding including paying staff salaries) WHEN?

Satau (senior programme manager) now overseeing projects including the Museum is to prepare the latest report (Narrative & Financial). The museum has a total of 4 staff members(all San)

Challenges in Development

D'Kar village is on private land, which was originally a farm, owned by the Dutch Reformed Church. Residents of D'kar are no longer enthusiastic about running the operations the museum and the cultural centre. Perhaps they no longer have a sense of ownership of the entire project.

Conclusions

Kuru/D'kar Museum and Cultural Centre should be preserved at all costs because it has the potential to be an agent of economic and social change and it could also form a knowledge base that could evolve to become the voice of the San.

It could also serve to bring about localised social and economic innovations, promoting social inclusion and enabling people living in remote areas to build sustainable livelihoods. This could promote self-reliance among these communities.

Motse wa D'kar o dikhilomithara di le masome a mararo go tswa ghanzi, mo tseleng ya Ghanzi le Maun. Bajanala ba ba etelang mo lefelong le ba thusiwa ka boroko ke diotele di tshwana le Kalahari Arms Hotel le Tautona Lodge. Gape ba kgona go reka dithoto tse di itiretsweng ka diatla ke batho ba metse e e mo kgaolwaneng eo mo marekisetsong a tshwana le Ghanzi Trust.Gape bontsi jwa batho ba mo tikologong eo ba kgatlhegela dikgwebo tsa bojanala di tshwana le go latedisa metlhala ya diphologolo mmogo le ditiro tsa botaki le tse dingwe tsa diatla.

Mo motsing wa D'kar go na le Basarwa le Baherero. Gape go na le Bakgalagadi, mme bangwe ba bone ba nyalane le Basarwa. Batho ba D'kar ba bua puo ya Senaro mme ke ka moo go nang le thulaganyo ya go ranolela baebela le dibukana tsa melaetsa ka ga HIV/AIDS kwa puong ya go nna jalo.

Ka ntlha ya dikgwetlho tsa matshelo mo tikologong eo,Letlole La Ditlhabololo La Kuru le ne la simolodisiwa ka thuso ya kereke ya Dutch Reformed. Go ne ga simolodisiwa mananeo mangwe a go dira madi. Lengwe la one ke la go dira motlobo wa ditso le fa go rutelwang teng ba ba dirang tiro ya botaki.

Mo nakong e e fetileng Motlobo Wa Ditso wa Kuru o ne o tsewa jaaka lefelo le go somarelwang ditso tsa merafe e e mo tikologong gore le dikokomane di di fitlhele. Mo go one motlobo o go supiwa ditso tsa Basarwa le ngwao ya bone. Dikai tsa dingwe tse di mo motlobong o ke dikgapha tsa mae a bommantshe, diletswa tsa setso, didirisiwa tsa letsomo, dijo, dimela tse di dirisediwang kalafi jalo jalo.

Motlobo o wa ditso o ka kgona go thusa go tokafatsa matshelo a batho ka go ba thusa go itshepha , go itlotla le go ikamogela O kgona go ngoka bajanala ba ba nang le kgatlhego mo dikgwebong tsa bojanala.Go botlhokwa go somarela ngwao e ya Basarwa ka go re mo tsamaong ya nako dingwe tsa didirisiwa tse di supilweng di ntse di fetoga boleng le tebego . Ka jalo go botlhokwa go di supa mo motlobong o di santse di le mo seemong sa tsone se di tlholegileng ka sone. Gape motlobo o wa ditso ga o tshwane le ope gape ka jaana balebeledi kwa go one ke bagolo ba ba nang le kitso e ntsi ka ditso le ngwao ya morafe o, e e iseng e ke e gatisiwe mo dibukaneng dipe. Ba santse ba ka arogana dipolelo ka matshelo a bone le bajanala ba ba ba etelang, mo mabakeng a mangwe ba dirisa mmino. Bajanala ba ba tsamaelang kwa Maun ba feta ka D'kar go bona motlobo o le ditiro tsa botaki tse di fitlhelwang foo mme go simolodisitswe thulaganyo ya gore ba abele motlobo o sengwe fa ba le mo mosepeleng ba feta jalo.

Lefelo la ngwao lone le dirisediwa go anamisa ditso le ngwao ya merafe e e mo kgaolwaneng eo mo baneng . Ba direlwa dithulaganyo tsa go ba ruta di akaretsa go tshameka diletswa tsa setso,go opela , go bina, go gotsa molelo, go bolelelana dipolelo,, go tsoma, go loga dibaga,, go dira dilo tse di farologanyeng ka matlalo le tsa botaki.

Motlobo o wa ditso le lefelo la ditso a amogela bana go tswa dintlheng tsotlhe tsa lefatshe leno. Ka nako e bana le bagolo ba tseneletse ditiro tse tsa thuto go ne go nna le gore bagolo ba fetisetse kitso e ba nang le yone ka dilo di tshwana dijo le dimela tse di dirisediwang kalafi ya setso le tsa botaki mo baneng. Gape motlobo o wa ditso o supa matshelo a batho ba ba tshedileng bokete, ba bontsi jwa bone ba santseng ba tshabelelwa ke go tshelela mo seemong seo mme ba ikiteile dihuba go emelana le sone. Mo nakong ya gompieno badira dipatlisiso ba dirisa motlobo o wa ditso go batlisisa ka ga tsa tikologo,dime la,lebopo,tshomarelo ya ditsa tlholego, dijo le boitekanelo.Tse dingwe ke ditso tsa merafe, puo le tsa matshelo a batho.

Mo lenaneong la bolesome la ditlhabololo tsa setshaba, puso e supile fa e dira maiteko a go sireletsa boswa jwa setshaba jwa ngwao le tlholego gore a kgone go thusa go tswakanya itsholelo mo mohameng wa bojanala gore o seka wa ikaega ka diphologolo, mmogo le go atolosa ditlamelo tsa bojanala.

Motlobo o wa ditso le lefatshe leno ka kakaretso le ka ithuta go le gontsi mo mafatsheng a mangwe, ka thuso ya melawana ya tshomarelo ya boswa jwa ngwao ya Lekgotla La Ditshaba. Mongwe wa melawana e o tlhalosa gore boswa jwa ngwao ke bontlha bongwe jwa boswa jwa lesika loo motho ka kakaretso, ka jalo bo tshwanetse go ipelelwa le go somarelwa go ka solegela batho botlhe molemo. Molawana o gape o lemoga botlhokwa jwa dikitso tsa setso le seabe se di nang le sone mo ditlhabololong tsa sennela ruri. Gape Lekgotla La Ditshaba le lemoga botlhokwa jwa go ema nokeng motlobo wa ditso o tshwana le o, gore go kgone go ipelelwa dipharologanyo tsa dingwao mo lefatsheng leno tse di kgonang go tsisetsa batho ka go farologana tlhabologo ya matshelo e e akaretsang botlhe.Kwa moseja go ka tsewa malebela kwa motlobong wa ditso o o bidiwang Tromso Sami kwa Norway, o o bidiwang Sami kwa Sweden le wa Maori kwa New Zealand. Gape motlobo o ka ithuta go le gontsi le mo metlobong e mengwe ya mo gae jaaka wa Nhabe kwa Maun, Phuthadikobo kwa Mochudi,, Khama III kwa Serowe, jalo jalo. Mengwe ya metlobo e ke e e supang ditso tsa merafe,(sekai ke ditshwantso tse di kayang polelo ya botshelo jwa ga Sir Seretse Khama le Ruth Khama, le tse di supang ntlo ya ga Bessie Head, kwa Serowe. Metlobo ya Molepolole, Kanye le Mochudi le yone e supa ditso tsa merafe e di direlang kwa go yone. Mo kgaolong ya Borwa Jwa Aferika , malebela a ka tsewa mo motlobong wa kwa Namibia o o bidiwang Nyae Nyae. Motlobo o le one o tsamaisiwa ke Basarwa mme le one o tshwaraganetse tiro ya one le lefelo la thekiso ya dithoto tsa setso.Motlobo o o dira jaaka sekolo sa setso kwa go rutwang ditso le ngwao ya batho ba letso la Ju/Hoansi teng.Mangwe a mananeo a motlobo o a akaretsa letsomo, , go latedisa motlhala wa diphologolo,mmino le moopelo, go tsaya leeto mo sekgweng, , ditiro tsa botaki le tsa diatla tse dingwe, mmogo le go supa dijo le tsa kalafi ya setso.

Le ntswa motlobo wa Kuru o dira pharologanyo mo matshelong a batho ba tikologo e, go na le dikgwetho tse di santseng di lebanye banni ba.Batho ba D'kar ga ba sa tlhole ba le matlhagatlhaga ka go tsamaisa ditiro tsa motlobo o le lefelo la ngwao mme sengwe se se dirang gore go nne jalo e ka tswa e le go bo ba sa ikutlwe jaaka ekete ke bone beng ba mafelo a.Bagolo ba tlogela lefatshe le le ka kwano ba santse ba tshwere kitso e ntsi ka tsa ngwao ya bone, ka jaana go sa dirwa maiteko a go anya kitso eo mo go bone fa ba santse ba tshela. Le mo mabakeng a dikitso tse di kgonneng go bonwa mo go bone, ga di a bewa ka ditsela tse di babalesegileng mme di a nyelela, ka jalo dikokomane tse di tlang di tla felela di latlhegetswe ke sebaka sa go di akola. Motlobo wa ditso wa Kuru ke letloltlo la kitso ka ga dikgang tse di farologanyeng tsa ngwao. Disupiwa tse di bonwang mo motlobong o di ka tsisa diphetogo tsa matshelo a batho le tsa itsholelo, ebile ke disupiwa tse di ka ntshetsang kwa ntle lentswe la Basarwa ka kakaretso. Gape motlobo o o ka rotloetsa tlhabologo ya matshelo a selegae a Basarwa le baagisanyi ka bone, le go ba thusa go ipelega..

D'kar Museum

OPENING OF MOGONYE TOURISM FACILITIES

BY BERLINAH MOTSWAKHUMO

Mogonye gate –house

Tourism has been identified as the world's fastest growing industry and in Botswana it has been recognized as one of the means to diversify the economy away from dependence on diamonds. This was said by the Minister of Environment, Wildlife and Tourism, Honourable Tshekedi Khama when officially opening the Mogonye Community Tourism Facilities that include the gate-house, ablutions and campsite on 12th August 2014 Minister Khama said there is a need to open up other natural geographical landscapes such as national monuments or heritage sites to achieve this aim. He pointed out that in this endeavor, local community participation is essential as ownership and sustainable use of these resources rests with the community.

The Ministry of Environment, Wildlife and Tourism has made a deliberate decision to identify and develop tourism areas in the southern part of Botswana especially on the premise of community based natural resources management. As part of this effort in 2011, the southern regional heritage trail was launched as a partnership between Debswana, Department of National Museum and Monuments and the Department of Tourism.

The Minister informed his audience that the community based natural resources management policy supports the conservation and management of natural resources by communities for social and economic benefit. He said communities in the north and north western parts of Botswana, especially the Okavango and Chobe areas are benefitting from the use of wildlife resources as tourists attractions.

When performing the official opening Minister Khama said *Mogonye community have in their environs, the Mogonye-Mmamotshwane Gorge, which was declared a national monument in 2006. This is the resource that the Mogonye community has developed the tourism facilities around, for economic benefit and sustainable use. The facilities include a gate-house and a campsite with an ablution block and resting places. The facilities were constructed at a cost of P500-000-00.*

He said he believed this was money well-invested by government in community empowerment and rural development, adding that the facilities can still be extended with a second campsite once visitorship to the site has grown.

Honourable Khama noted that with limited financial resources available from government, community tourism projects have so far been possible through the Ipelegeng programme. He said implementation of these projects though Ipelegeng programme has seen developments such as access roads, trails, gate-houses, campsites with ablution blocks which in turn have spill over benefits of employment creation in rural areas. All the materials and labour that is needed for the projects are sourced from the local communities.

Mogonye-Mmamotshwane Trust will be managing the tourism activities here on site on a daily basis on behalf of the community. I will be signing a Memorandum of Understanding for this partnership with the trust today. The Department of National Museum and Monuments is available to provide any technical assistance that is needed in the management of the site, Minister Khama told the gathering.

He assured his audience that the harvesting of medicinal plants and water from the gorges by the community will still go on in a balanced manner, to ensure the sustainability of the resources. He called

Go lemosegile fa bojanala e le mohama o o golang go gaisa mehama e mengwe ya itsholelo lefatshe ka bophara mme mo Botswana o kaiwa e le mongwe wa e e dirisiwang go tswakanya itsholelo ya lefatshe leno gore e seka ya ikaega ka teemane. Se se boletswe ke Tona wa Tikologo, Diphologolo le Bojanala rre Tshekedi Khama fa a ne a bula semmuso ditlamelo tsa bojanala kwa Mogonye tse di akaretsang ntlwana e go amogelelwang baeng fa go yone kwa hekeng ya kgophu ya Mmamotshwane. Tse dingwe ditlamelo ke matlwana a boitiketso le fa bajanala ba ka nnang teng ka nakwana fa ba etetse kwa kgophung eo.Tona o ne a bolela gore go tlhokafala gore go bulwe mafelo a mangwe a bojanala a a nang le bokao jwa ngwao le tlholego gore go tle go kgonwe go fitlhelela maitlamo ao a go tswakanya itsholelo. O supile fa go le botlhokwa gore banni ba metse e e mo tikologong ya mafelo a ba tsenye letsogo mo maitekong a ka gore go mo maruding a bone go bona gore a a tlhokomelesega ebile a dirisiwa ka kelotlhoko gore meamuso e e leng mo go one e tswelele e le teng e babalesegile ka lebaka le le leele.

Tona Khama o ne a re maikarabelo a lephata la gagwe mo tiragatsong ya lenaneo la bolesome la ditogamaano tsa ditlhabololo ke go lemoga le go tlhabolola mafelo a a nang le bokao jwa ngwao le tlholego mo borwa jwa lefatshe leno a a ka dirisiwang go ngoka bajanala, ka thuso ya banni ba metse e e mo tikologong ya mafelo ao. O ne a tlhalosa gore e le bontlha bongwe jwa go diragatsa maikarabelo a lephata, e ne ya re ka 2011ga simolodisiwa mafaratlhatlha a ditsela tse di lomaganyang matlotlo a a nang le bokao jwa ngwao le tlholego mo borwa jwa Botswana. Tiro e e ne e tshwaraganetswe ke Lekala La Ditso Le Ditsa-Tlholego, Lekala La Bojanala le kompone ya Debswana.

Tona o ne a tlhalosetsa batsena-moletlo oo wa pulo semmuso gore tsamaiso ya tlhokomelo matlotlo a ngwao le tlholego e e dirwang ke banni ba metse e e mo tikologong ya matlotlo ao, e thusa mo tshomarelong ya one gore a kgone go tsisa dipoelo mo go tsa itsholelo le tsa matshelo a batho. O kaile gore banni ba metse e e mo tikologong ya meamuso ya go nna jalo kwa bokone le kwa bokone bophirima jwa lefatshe leno, bogolo jang kwa dikgaolong tsa Okavango le Chobe, ba setse ba akola maduo a tsamaiso eo ka ba somarela diphologolo le go di dirisa go ngoka bajanala.

O kaile gore banni ba Mogonye ba na le kgophu ya Mmamotshwane mo tikologong ya bone e e tlhomilweng go nna lefelo la bosetshaba le le nang le bokao jwa ngwao le tlholego ka 2006. One a re kgophu e ke yone e batho ba Mogonye ba dirileng ditlhabololo tse di neng di bulwa semmuso mo tikologong ya yone go ba direla dipoelo le go thusa gore e dirisiwe ka thekegelo gore e seka ya senyega. Tona o boletse gore ditlhabololo tse di dirilwe ka madi a a ka tshwarang dikete tse di makgolo matlhano tsa dipula (P500-000.)

O tsweletse a re o dumela gore madi a a dirisitswe sentle mo go feng banni ba Mogonye dithata tsa itsholelo le go thusa mo tlhabololong ya matshelo mo magaeng, a tlatsa ka gore fa dipalo tsa bajanala ba ba etelang koo di setse di godile, ditlhabololo tse di ka okediwa ka go tlhoma lefelo la bobedi le bajanala ba ka nnang ka nakwana mo go lone fa ba etetse kgophu eo. O supile gore ka jaana puso e tlhaelelwa ke madi, bontsi jwa ditiro tsa go tlhabolola mafelo a bojanala di kgonnwe ka lenaneo la Ipelegeng. O boletse gore tiragatso ya lenaneo le e thusitse mo go reng go nne le ditlhabololo di tshwana le ditsela tse di yang kwa go one mafelo ao a bojanala, matlwana a go amogelelwang bajanala mo go one kwa dihekeng tsa mafelo ao,mafelo a bajanala ba ka nnang mo go one le matlwana a boitiketso. O tlhalositse gore go dirwa ga ditlhabololo tse go lere maduo a mantle jaaka go bula diphatlha tsa ditiro mo magaeng. One a re bodiredi le didirisiwa tsotlhe tse di tlhokegang

for total commitment from the Mogonye-Mmamotshwane Trust for the success of the project and urged Botswana Tourism Organization, HATAB and other key stakeholders in the tourism industry to assist the trust to market the site and to attract joint venture partnerships. He thanked the Southern District Council for taking on the project and ensuring its success.

Addressing guests earlier, Kgosi Kebinatshwene Mosielele of Manyana said his area is rich in natural resources which the local communities can harness for their own benefit. He gave as an example, a heritage trail that could link other sites of interest in the area to Mmamotshwane; for instance sites like Dimawe, where some Batswana groups defeated the Boers in battle in 1852, Legaga La Ga Mma-Sechele (where Mohumagadi Mma Sechele was hidden when she was pregnant during the Dimawe battle to keep her and the expected baby safe), San rock paintings on Mma-Sechele hill in Manyana and the Livingstone tree where the Missionary Dr David Livingstone preached the word of God, taught people how to read and write and offered health services.

For his part, the chairperson of the Mogonye-Mmamotshwane Trust Mr Thaka Bose said that the trust is will strive to ensure that their project becomes fully operational, profitable and sustainable.

Giving an overview of the role of councils in the implementation of Ipelegeng projects, the Chairman of the Southern District Council Mr Leach Tlhomelang said *boipelego* or self -reliance is one of the principles that this country has embraced since independence. He stated that since the country was poor, the colonizers were in a hurry to grant our people independence and leave because they believed that there was nothing they could benefit from this country. Therefore Batswana had to rely on themselves to forge a way forward.

As part of keeping this principle alive, the government through the Ipelegeng Programme, assists communities with funding to carry out developments in their areas, such as gravelling roads in the villages, establishing trails and so on. The Southern District Council was approached to assist in the establishment of community tourism facilities in Mogonye Mr Tlhomelang pointed out. He also said the council embraced the idea because its intention was to ascertain that funds from the Ipelegeng Programme are not used just for clearing trees and slashing grass but also for concrete and tangible projects such as this one which are an investment.

mo ditirong tse, di bonwa mo banning ba metse e e mo tikologong ya mafelo ao. O gakolotse banni ba Mogonye gore lekgotla la bone la morafe le le bidiwang Mogonye-Mmamotshwane Trust ke lone le tla bong le tlhokometse ditiro tsa tlhabololo bojanala mo boemong jwa bone. O ba itsisitse fa a tla bo a saena tumalano le lekgotla leo mo go lone letsatsi leo, ya go tshwaraganela tiro e le bone, a bo a re Lekala La Ditso Le Ditsa-Tlholego le tla bo le ntse le fa lekgotla la bone dikgakololo le maele tse di tlhokegang mo tlhokomelong ya kgophu eo.

O ba tlhamamiseditse gore go bapalwa ga dimela tse di dirisediwang kalafi le go giwa ga metsi a a dirisediwang tsa kalafi mo kgophung eo go tla tswelela mme go beilwe leitlho gore ga go dirwe ka tsela e meamuso e e ka tlogang ya fela kgotsa ya senyega.O kgotlhaditse lekgotla la Mogonye –Mmamotshwane Trust go itlama go netefatsa gore ditiro tsa lone tsa tlhabololo bojanala di a atlega a bo a kopa makgotla a Botswana Tourism, HATAB le banaleseabe ba bangwe mo mohameng wa bojanala go thusa lekgotla leo go bapatsa kgophu eo ya Mmamotshwane ka mashetla.O lebogetse Khansele Ya Borwa go bo e ne ya tshwara ditiro tsa ditlhabololo kwa kgophung eo ka manontlhotlho le go netefatsa gore di a atlega.

E ne e rile a amogela baeng go le pele, Kgosi Kebinatshwene Mosielele wa Manyana a bolela gore kgaolo eo e humile meamuso ya tlholego e banni ba yone ba ka e dirisang go itokafaletsa matshelo. O ne a fa sekai ka gore go ka dirwa mafaratlhatlha a ditsela tse di golaganyang mafelo a mangwe a a nang le bokao jwa ngwao le tlholego le kgophu ya Mmamotshwane. O nankotse mangwe a mafelo ao jaaka Dimawe kwa merafe mengwe ya Batswana e neng ya fenya maburu mo ntweng ka 1952. O ne a kopa Tona Wa Tikologo, Diphologolo Le Bojanala mmogo le Mookamedi wa Lekala La Ditso Le Ditsa-Tlholego go thusa mo go rulaganyetseng gore ba sesole sa Botswana ba tlhome sekao sa segopotso sa ditiragalo tseo gone kwa lefelong leo.

O boletse fa seo se ka ngoka bajanala le go dira gore Batswana le bone ba ipelafatse ka lefelo leo jaaka bontlha bongwe jwa ditso le boswa jwa bone. Mafelo a mangwe a a gaufi le Mogonye a a buileng ka one ke Legaga La Ga Mma-Sechele kwa Mohumagadi Mma-Sechele a neng a iphitlhile teng jaaka a ne a le mo mmeleng ka nako ya ntwa ya kwa Dimawe.A mangwe ke thaba ya Mma-Sechele kwa Manyana , e mo go yone go fitlhelwang ditshwantsho tsa mo matlapeng mmogo le setlhare sa ga Livingstone kwa moreri wa lefoko la Modimo ebong ngaka David Livingstone a neng a rerela teng, a bo a ruta batho go bala le go kwala.Gape o ne a fela batho dithuso tsa kalafi teng.

Kgosi Mosielele o tlhalositse gore fa go ka gokagangwa mafelo a, banana ba kgaolo eo ba ka tsamaya le mafelo a ba dirisa dipitse go kaela bajanala matlotlo a. O boletse gore banni ba kgaolo eo ba tlhoka thuso ya go dira lenaneo la tsamaiso kgwebo gore ba tle ba kgone go fitlhelela dikeletso tsa go nna jalo. O bile a kopa gore gape ba thusiwe ka bodiredi jwa banana ba Tirelo Sechaba gore ba kgone go duedisa bajanala fa ba etela mafelo a ka jaana go lebega e le gore barulaganyetsi ba maeto ba ba direlang kwa Aferika Borwa ba duedisetsa bajanala ruri ba santse ba le ka kwa lefatsheng la bone, ba bo ba ba tlisa ka kwano gore ba tle go tsena mo mafelong ao go sena tuelo epe e e lopiwang ka kwano. Se sengwe se a neng a kopa gore banni ba kgaolo eo ba thusiwe ka sone ke kago ya matlwana a boitiketso kwa thabeng ya Mma-Sechele le kwa setlhareng sa ga Livingstone.

E rile a tswa la gagwe Modulasetilo wa lekgotla la Mogonye Mmamotshwane, rre Thaka Bose a re bojanala ke mongwe wa mehama e e direlang lefatshe leno dipoelo tse di bonalang, ntle le teemane. O tsweletse a re potso e rotlhe re tshwanetseng go e ipotsa ke gore re dira eng ka ditshono tse di leng teng tsa go boelwa ka go dirisa mohama o. O bile are lekgotla la gagwe le leka bojotlhe go bapatsa mafelo a mangwe a a kgatlhisang a a ka okang bajanala mo kgaolong eo gore le kgone go kokoanya madi mme se se ka kgonagala fela fa go na le bodiredi jo bo nang le dikitso tse di lebaneng mo go tsa bojanala, go thusa mo ipapatsong eo.

“ Go na le fa go ka direlwang diphikiniki, teng fa go ka dirisiwang ke bana ba dikolo,dikereke, malwapa a a ipelelang manyalo, jalo jalo. Mo nakong eno re kgonne go fa setshaba nomore ya mogala wa letheka e ba ka re tshwarang mo go yone mme re mo lenaneong la gore go gokelwe mogala mo ofising ya lekgotla le. Ba Yunivesithi ya Limkokwing ba re abetse sebala-makgolo mme ba re solofeditse gore ba tla thusa ka ditirelo tsa maranyane tse di tsamaelanang le tiriso ya sone.

’ ga tlhalosa jalo rre Bose. O tladitse ka gore se se tla thusa mo maitekong a go bapatsa kgophu ya Mma-Motshwane.

Dingwe tsa ditiro tse a boletseng fa lekgotla la gagwe le tla di dira go bapatsa ditiro tsa bojanala mo kgaolong eo di akaretsa go supa ditiro tsa babeti, balogi ba ditlatlana, babini ba mmino wa Setswana,baboki, dikhwaere, jalojalo.

Fa a bega ka seabe sa dikhansele mo tiragatsong ya lenaneo la Ipelegeng, Modulasetilo Wa Khansele Ya Borwa rre Leach Tlhomelang o supile gore boipelego ke lengwe la matshego a lefatshe leno le sa leng le itshegeditse ka one fa e sale le tsaya boipuso. O rile ka jaana lefatshe leno le ne le humanegile ka nako eo, bagogi ba puso ya sekolone ba ne ba ne ba itlhaganelela go rolela lefatshe leno boipuso ka ba ne ba sa bone go na le sepe se se se ka ba boelang mo go tsweleleng ba le busa. Ka jalo Batswana ba ne ba tshwanelwa ke go simolola go ipelega, go tsweledisa ditiro tsa lefatshe la bone.

Rre Tlhomelang o kaile gore jaaka bontlha bongwe jwa maiteko a go tsweledisa letshego le, puso e tlhomile lenaneo la Ipelegeng go thusa ka madi a go dira ditlhabololo mo magaeng tse di tshwanang le go tshela ditsela lekgwarapana, dingwe tsa tsone e le tse di lomaganyang mafelo a a nang le bokao jwa ngwao le tlholego mo dikgaolong tseo. O boletse gore Khansele ya Borwa e ne ya kopiwa go thusa mo kagong ya dithabololo tse di neng di bulwa ka letsatsi leo, mme ya dirisa didikadike tsa dipula mo go tsone ka maikaelelo a go ngokela bajanala mo lefelong leo.

Modulasetilo o boletse fa khansele e dirisitse badiredi ba Ipelegeng ba le sekete le makgolo a matlhano ba ba neng ba kgona go nna le motlhale wa itshetso. O ne a re khansele e ne ya amogela mogopolo wa go dira ditiro tseo tsa ditlhabololo ka maikaelelo a go netefatsa gore madi a lenaneo la Ipelegeng ga a dirisediwe fela go kgaola ditlhare le bojang mme a dirisediwa ditiro tse sennela ruri tse ba ka tlang ba leba kwa morago ba ipelafatsa ka tsone. O weditse ka go kgotlhatsa banni ba Mogonye go batla banaleseabe ba ba ka tshwaraganelang tiro ya go tlhabolola lefelo le le bone, gore e tle e atlege.

Bommerc

The proposed Botswana Mining Museum, Education and Research Centre (BOMMERC) shall be based at Selebi Phikwe using the decommissioned BCL open pit No.1 Shaft. It shall comprise of a mining and geological museum with galleries, exhibits, education rooms and technical facilities. When it was established, the idea was to construct a geological and mining museum (above and below ground), and a science and mining resource centre (above ground)

Implications

BOMMERC shall be a meeting point for academics, engineers and the local community, with the aim of providing services.

BOMMERC shall be transformed undertaking profit making operations for the owners, BCL Mine, to a non-profit making agency with social objectives and guided by principle of cultural heritage management.

BOMMERC is to provide insight into the technical and human aspects of mining, particularly the human-earth interaction that creates images, infrastructure, processes, techniques and goods that reflect science or engineering.

It is also to provide the opportunity for a wide range of educational experiences: pertaining to the mining industry, its processes and people, its history and heritage.

Possible Challenges of the Project

The proposed site is big and that makes development costly.

The degradation of surrounding natural environment that results from mining is also a challenge.

The peripheral location of the mine is a challenge to visitors using the normal tourist routes or circuits. Besides the number of visitors to mining attractions is declining. It is possible that the visits to the site may be seasonal, because of its outdoor nature.

There is always a thin line between preserving a site and developing it for tourism attraction because such developments may not augur well with keeping the site intact.

Funding acquisition for the sustained operation of the centre. A lot will also have to be done to raise the profile and attractiveness of the site for consumers.

Possible Benefits

There is a possibility that former mine workers may be employed as interpreters and there will also be income generation through tourist activities. The change of the Selebi Phikwe outdoor/ economic activities through the establishment of shopping and amusement centres is another possible way in which the Selibe- Phikwe community could benefit. The Botswana International University of Science and Technology (BIUST) could also extend its educational activities to the site.

Three parameters define a mine museum visit:

1. The physicality of the mine itself.

This physicality is the result of two processes: the dynamics between the mine and its employees in the pre-acquisition phase of its existence, and the results of post-acquisition interpretations.

2. The actual time and space related conditions

These vary from the time of the day at which the visit is undertaken, the weather, finding a parking place, etc.

3. Personal context

This refers to the earlier experiences, expectations, knowledge and learning style of the visitor as well as the social framework of the visit, it may depend on the kind of company the visitor is keeping at the time; visiting with a dear friend, with parents and with children. In the eyes of the visitor, the mine as a historic artifact has an identity with three basic layers namely: The mine as it was created and used before it became a museum, the transformation of the mine into a mine museum, and the mine as perceived during the visit.

Site Specific Management Plan

There is a need to come up with a site specific management plan that will outline the nature of the site, the mission of the operating organization, the carrying capacity of the site in terms of visitorship, the type of interpretation to be provided as well as the magnitude of the marketing that would have to be undertaken.

MAKING CONNECTIONS THROUGH THE BCL MINE

BY DR THATAYAONE RAMMAPUDI

The BCL mining area

Motlobo Wa Ditso Tsa Kepo Ditswammung o tlhomilwe kwa Selibe Phikwe go dirisiwa bontlha bongwe jwa moepo wa koo wa Bamangwato Concession Limited. Motlobo o o na le fa go direlwang ditshupo teng, matlwana a go rutelwang baeng mo go one, mafaratlhatlha a maranyane, didirisiwa tse di ka dirisiwang go dira ditshupo. Maikaelelo ke gore go agiwe motlobo o kwa tlase ga lefatshe , mme go bo go nna le mafaratlhatlha a maranyane kwa godimo

Lefelo le e tla nna le mo go lone go kopanngwang dikitso tsa baitseanape ka go farologana , boramaranyane le bo mmamaranyane le makgotla a a farologanyeg go fa banni ba tikologo ya Selibe Phikwe ditirelo Go solofetswe gore mo tsamaong ya nako moepo o fetoge go tswa mo go remeleleng mo go direleng beng ba one dipoelo, o fetogele kwa go thuseng go tlhabolola matshelo a batho a selegae le go sireletsa boswa jwa ngwao jwa lefatshe leno.

Gape go tla nna le tshedimosetso e e fiwang baeng ka fa motho a dirisang lefatshe ka teng go dira motlobo wa mofuta o, o o nang le ditlamelo, go supiwa ditshwantsho, ditsamaiso tse di latelwang go dira tiro ya kepo ditswa mmung,boranyane jo bo dirisiwang le didirisiwa tse di tlhokegang mo tirong eo.Ka jalo baeng ba tla nna le sebaka sa go ithuta go le gontsi mo go one, bogolo jang ka ditso tsa tiro e le ka boswa jo e re bo diretseng.

Le fa go ntse jalo go tlhoma motlobo o go na le dikgwetlho tsa gone, ngwe ya tsone e le bogolo jwa lefelo le o tlhomiwang mo go lone ka jaana tiriso ya lefatshe e ka nna ya tura fa go dirisiwa lefatshe le le tona.Gape go na le gore tikologo ya motlobo o e ka senygega ka ntata ya tsone ditiro tsa kepo ditswa mmung.Mo godimo ga moo, lefelo le o leng mo go lone le kgakala le ditsela tse bajanala ba di dirisang go tsamaya mo mafelong a a farologanyeng. Se se ka nna sa dira gore dipalo tsa batho ba ba o etelang di nne kwa tlase. Gape go na le kgonagalo ya gore batho ba etele motlobo o ka dipaka tse di rileng fela ka jaana o le fela kwa ntle mo lebaleng.

Tse dingwe tse di ka diragalang ke gore go nne le kgotlhang magareng ga mogopolo wa go somarela mafelo a a okang bajanala jaaka lone le, le mogopolo wa go a tlhabololola go re a dirisiwe mo go tsone tsa bojanala. E nngwe ke e e ka bakiwang ke ka fa bagolwane ba puso ba tsamaisang ka teng tshomarelo ya mafelo a go nna jaana. Gape go ka nna le gore go nne le letlhoko la madi.Mo tsamaisong ya motlobo o go tlhokega tshegetso ya banni ba mafelo a a mo tikologong ya lefelo le motlobo o o leng mo go lone.

Go simolodisiwa ga motlobo o go tla tlhama diphatlha tsa ditiro ka go farologana. Sekai ke ba ba ranolelang baeng se ba se tlhalosediwang, ka puo e ba e tlhaloganyang.Gape jaaka bajanala ba ntse ba etela lefelo le ba tla bo ba ntse ba tsisa dipoelo tsa madi. Se sengwe ke gore go tla nna le marekisetso le mafelo a itoso bodutu a a tla solegelang setshaba mosola. Gape Univesithi ya maranyane ya lefatshe leno e ka kgona go atolosetsa ditiro tsa yone tsa thuto mo go one motlobo o.

Dingwe tse di tshwanetseng go elwa tlhoko mabapi le go rulaganyetsa leeto la go ya kwa motlobong o tshwana le o ke gore motlobo o o agilwe fa kae, o le kgakala kgotsa o se kgakala go le kae le batho. Gape go tshwanetse gore go tlhokomelwe nako e leeto la go ya koo le tsewang ka yone, go tlhomamisa gore ke nako ya letsatsi e e siameng, seemo sa lewapi e le se se nametsang, jalo jalo. Gape go tshwanetse go re go elwe tlhoko gore yo o etelang koo o tsaya leeto le a na le mang gore le kgone go nna le le atlegileng. Go lemotshega gore mo go tseyeng leeto la go ya kwa motlobong o, batho ba tla bo ba solofetse go bona ditso tsa moepo, ka fa o simologileng ka teng le ka fa o neng o dirisiwa ka teng, phetogo e e neng ya nna teng go fitlhelela go nna le motlobo wa ditso le ka fa moepo o lebiwang ka teng ka nako e ba o etetseng ka yone.

Go tlhokafala gore go dirwe lenaneo la tsamaiso ya motlobo o le go tswa ka maitlamo a moepo o ikaeletseng go a diragatsa .Lenaneo le le tshwanetse go supa gore lefelo le le ka tsaya palo e e kae ya batho le gone go kaya mokgwa o ka one go ka tlhalosiwang disupiwa tse di mo go one.

The Tsodilo gecko *Photo downloaded from; www.jonboone.com, 2014*

THE TSODILO GECKO

ONE OF THE GEMS OF THE TSODILO HILLS BY MATLHOGONOLO TSWIIO

The Tsodilo hills are located in North-west Botswana and cover an area of 4800 hectares with a series of rock paintings among them. The rock paintings at Tsodilo represent the largest concentration of such work in Botswana with a density of about 40 sites per square kilometer (Tsodilo World Heritage nomination dossier, 2000). The hills stands at 1395m above sea level and this forms an isolated topographical feature in the otherwise flat landscape of the Kalahari. The Tsodilo hills cluster consist of 4 major hills: the male, female and two children. The rocks at Tsodilo are part of the Damara super group making the rocks some 1500 million years old. The rock art shows a preference for big game such as giraffe, gemsbok, elephant, eland and zebra. Cattle are also common as well as human figures and abstract geometric designs.

The Tsodilo hills have been declared a world heritage site in 2001for its outstanding universal value because preserved within its archaeological record is a chronological account of human activities and environmental changes that span a period of atleast 100 000 years (Tsodilo World Heritage nomination dossier, 2000, pg13).

The Tsodilo hills are occupied by large trees such as Mongongo (Schinziophyton rautanenii) and the impressive baobabs (Adonsonia digitata). Animals such as leopards, vervet monkeys, brown hyenas and kudu can be found among the hills. Of great interest among the reptiles found in the area is the Tsodilo gecko, Pachydactylus tsodiloensis. Pachydactylus is by far the largest genus of southern African lizards, comprising nearly 50 species. Of these, Bibron`s gecko (Pachydactylus bibronii) is widely distributed and most likely to be seen (Patterson, 1987). Pachydactylus bibronii is the closest relative to Pachydactylus tsodiloensis and it is found throughout Botswana and Southern Africa. Geckoes are distinguished from other lizards by having no movable eye lids and they clean their eyes by licking the dust from the surface. Geckoes have tongues which they are capable of protruding from the mouth. The shape and structure of the fingers and toes are adaptations to a gecko`s particular habitat and as such are an important aid in identifying the various genera.

The Tsodilo gecko is endemic to Botswana and is restricted to the Tsodilo hills and was first described in 1966 (Auerbach, R.D (1987). This means that it originates among these hills and was discovered there. This gecko is nocturnal and grows to about 135mm. It is grey brown on the body with a carrot shaped tail tapering to a point and has dilated toe tips. Eighteen more or less regular rows of enlarged turbercles run the length of the body. This gecko feeds on small athropods including ants.

This species was first described in 1966 and no further investigations have been done to determine its taxonomic status. Endemic species such as this one are very susceptible to extinction if their conservation plans are not put in place. This species is classified as Near-threatened in the IUCN Red data list which means conservation measures need to be put in place to ensure its survival. The tsodilo gecko is restricted to the Tsodilo hills and is therefore potentially vulnerable to climate change and the area should be prioritized for conservation (Timberlake, 2004).

Dithaba tsa Tsodilo di fitlhelwa kwa bokone bophirima jwa lefatshe leno mme di le bophara jwa diekere di le dikete tse nne le makgolo a mabedi. Mo go tsone go bonwa ditshwantsho tsa mo matlapeng. Dithaba tse di boleele jwa dimmithara di le sekete, makgolo a mararo, masome a robabongwe le botlhano.Dithaba tse di kgaogane gane. Go na le thaba ya monna, thaba ya mosadi le dithaba tsa bana di le pedi.Di na le dingwaga di ka nna didikadike tse di sekete le makgolo a matlhano. Bontsi jwa diphologolo tse di supiwang mo ditshwantshong tse di mo majeng a ke dithutwa,ditholo, diphofu,ditlou, dipitse tsa naga jalo jalo. Tse dingwe tse di bonalang mo ditshwantshong tse ke dikgomo le batho le tse dingwe tse di sa itlhaloseng ka tebego ya tsone gore ke eng.

Dithaba tse di kwadisitswe go nna lefelo la mafatsheftshe le le nang le bokao jwa ngwao le tlholego ka ngwaga wa 2001 ka ntlha ya go bo di supega e le lefelo le le nang le ditso tse di humileng ka batho ba ba nnileng foo dingwaga tse di ka nnang dikete di le lekgolo, mmogo le ditiro tsa bone le diphetogo tsa tikologo tse ba di itemogetseng.

Mo go tsone dithaba tse go na le ditlhare tse dikgolo jaaka Mongogo le Mowana. Diphologolo tse di tshwanang le Mangau, Dikgabo, Diphiri, jalo jalo di fitlhelwa mo dithabeng tse.Mo digagabing tse di nnang mo go tsone, go mofuta mongwe wa mantseane, o o ngokang kgatlhego e ntsi fela thata. Ke one mofuta o motona ka popego go feta mefuta yotlhe ya bommantseane mo Aferika.Mofuta o o farologanngwa le bommantseane ba bangwe ke go bo o sena dintshi mme o phepafatsa matlho a one ka go latswa lerole mo godimo ga one. Bommantseane ba mofuta o ba na le maleme a ba kgonang go a lepeleletsa kwa ntle ga legano.O kgona go lemogwa ka ditebego tsa menwana ya one.

Mantseane yo, yo o mo dithabeng tsa Tsodilo o fitlhelwa fela mo Botswana le mogo tsone dithaba tsa Tsodilo. O tlholegile a bo a lemogwa mo go tsone. O kgona go gola go ya go tshwara di mmilimithara di le lekgolo, masome a mararo le botlhano. O mmala o o botuba jo bo kopanyeng le bosetlha, mme mogata wa one o na le popego e e keteng ya segwete . Mantseane yo o ja ditshidiyana go balelwa le ditshoswane.

Fa e sale go lemogiwa bo leng teng jwa mantseane yo mo dithabeng tse ka 1966, ga go ise go ke go dirwe dipatlisiso tse di tseneletseng go tlhomamisa tlholego ya gagwe. Mefuta ya ditshidi e e tshwanang le e, e motlhofo go nyelela fa go sa dirwe mananeo a go e somarela. Ke mongwe wa mefuta ya ditshidi e e tsewang e gomagomediwa ke go nyelela mo lefatsheng ka bophara.Se se raya gore go tshwanetse ga engwa ka dinao go dira dithulaganyo tse di tsepameng tsa go o sireletsa. Jaaka fa mantseane yo a bonwa mo dithabeng tse tsa Tsodilo fela jaana, o ka nna a amiwa ke phetogo ya seemo sa lewapi mo kkgaolong eo mo tsamaong ya nako. Ka jalo kgaolwana e dithaba tse di leng mo go yone e tshwanetse go tsewa e tla pele fa go tsewa dikgato tsa go fokotsa manokonoko a phetogo ya seemo sa lewapi.

AFRICAN COPPER HANDS OVER TWO HOUSES TO NATIONAL MUSEUM

BY BERLINAH MOTSWAKHUMO

On 17th July, the management of African Copper (PTY) LTD handed over two houses at Gerald Estates to the Department of National Museum and Monuments at an event graced by Permanent Secretary in the Ministry of Environment, Wildlife and Tourism Mr Neill Fitt and Francistown local authorities including the Mayor of the City of Francistown Mr James Kgalajwe. The two houses would be utilised as residence and an office for the Francistown region. They were handed over by the Chief Executive Officer of ZCI Limited Mr Thomas D. Kamwendo to the Permanent Secretary in the Ministry of Environment, Wildlife and Tourism Mr Neill Fitt.

The two houses had been acquired from Botswana Housing Corporation by African Copper and handed over in fulfillment of parts of the Memorandum of Agreement(MOA) between Government of Botswana and African Copper (PTY) LTD as compensation for the destruction of the ancient mine at Thakadu in Matsitama area. The MOA includes among other things, the commitment that African Copper (PTY) LTD will also build an interpretation centre in the land closer to the two houses to showcase the columnar joints as well as artifacts from ancient mining activities in the Matsitama area.

Receiving the houses, Mr Fitt said the two houses will enable the Department of National Museum and Monuments to implement its mandate in the Francistown region and the anticipated interpretation centre will provide the Francistown area with a unique educational and leisurely facility.

While in Francistown, Mr Fitt also unveiled a display of the Columnar Joints at the Francistown Airport. The columnar joints were discovered in Gerald Estates in Francistown during the construction of the Botswana Housing Corporation houses. They have since been declared a National Monument in 2011. Mr Fitt said his Ministry through the Department of National Museum and Monuments is engaged in a programme to display historic and unique items at designated public spaces for public contemplation.

The Mayor of the City of Francistown Mr James Kgalajwe applauded the Department of National Museum and Monuments for preserving the columnar joints and creating awareness about their existence in the City of Francistown. He said had it not been for this intervention, the columnar joints may have been mistaken for useless rocks and destroyed.

Columnar joints are geological structures where sets of intersecting closely spaced fractures, commonly called joints, result in the formation of a regular array of polygonal prisms or columns. This happens when volcanic rocks cool and contract. The columns usually vary from 3 metres to a few centimetres in diameter and can be as much as 30 metres tall. They are typically parallel and straight but can also be curved.

Gerald Estate Columnar Joints are the only rare unique formation of their kind found in Botswana so far. They are rock pillars which are pentagonal in shape and differ in size to more than 3 metres tall. They are all attached to one another to have a cluster of individual blocks clumped together to form a single larger column.

Mokwaledi mogolo mo lephateng la Tikologo, Diphologolo le Bojanala rre Neil Fitt o lebogetse batsamaisi ba kompone ya African Copper (PTY) LTD go bo e abetse Lekala la Ditso le Ditsa-Tlholego matlo a le mabedi go a dirisa jaaka ofisi le bonno jwa modiredi yo o direlang kwa Francistown. Matlo a a ne a rolelwa lekala le, le Lephata La Tikologo, Diphologolo Le Bojanala ke mookamedi wa ZCI Limited rre Thomas D. Kamwendo yo o neng a supa fa ba itumeletse go bo kompone ya ga gabo e kgonne go thusa lekala le ka matlo ao, e le bontlha bongwe jwa lenaneo la yone la go busetsa dipoelo mo setshabeng.

Fa a amogela matlo ao, rre Fitt o ne a bolela gore a tla thusa lephata la gagwe go nna le seabe se se bonalang mo go goleng ga bojanala mo toropong ya Francistown. O bile a kaya fa mpho eo e supa go rotloetsa bojanala mo go tsa ngwao ka go simolodisiwa ga mafelo a masha a a dirisiwang ke morafe le ditlhopha tse di dirang ditiro tse di amanang le ngwao.

Rre Fitt o boletse gore go amogelwa ga matlo a ke kgato e kgolo mo tiragatsong ya ditumalano fa gare ga puso le kompone ya African Copper. O tlhalositse gore morago ga gore kompone eo e simolole go epa ditswa-mmung mo moepong wa Thakadu, e ne ya itlama go aga fa go ka rutelwang teng setshaba ka tse di amanang le kepo ditswammung. O supile fa a itumelela gore lephata la gagwe le kgonne go bona lefatshe mo Gerald Estate le go tla agiwang mo go lone motlobo wa ditso tse di amanang le matlapa le kepo ditswa mmung.

O tlhaloseditse bareetsi ba gagwe gore ka 2010 lephata la gagwe le ne la anamisa mokwalo o o supang mafelo a a kgatlhisang go ka etelwa mo kgaolong ya Francistown. O supile gore maikaelelo a go dira jalo e ne e le go godisa bojanala mo kgaolong eo. O bile are motlobo wa ditso tse di amanang le matlapa le kepo ya ditssa-mmung o tla thusa gore toropo ya Francistown e nne le mofuta wa bojanala o o pharologanyo o o tla okelang palo e ntsi ya bajanala mo go yone.

Matlo a a neng a a amogela a mo karolong ya toropo e go tsileng go agiwa motlobo wa ditso tse di amannang le matlapa le kepo ya ditswammung mo go yone, mo Gerald Estae. Ke mo go yone karolwana e ya toropo, mo go fitlhelwang matlapa a a kailweng e le lefelo le le nang le bokao jwa tlholego ka 2011.

Matlapa a ke a a phatlogileng fa gare mme a atumelane thata go dira tebego e ntle thata e e kgatlhisang. Se se diragala fa matlapaa a tsidifala a bo a ngotlega mme ka jalo a phatloge. Matlapa a a kgona go nna bonnye jwa disenthimithara di se kae mme gape a kgona go nna bogolo jwa dimmithara di ka nna masome a mararo.Matlapa a a kwa Gerald a lebega jaaka dipilara, a farologana ka bogolo jwa one mme a tshwaragane go dira selo se le sengwe.

Mokwaledi mogolo o ne a tlhalosa gore matlapa a mofuta o ga a tlwaelesega mo Botswana le gore mono gae a bonwa fela mo Francistown. O kaile gore a sireleditswe gore a kgone go sekasekiwa go ya pele go ithuta go le gontsi ka one.Matlapa a mangwe a mofuta o a fitlhelwa kwa setlhakatlhakeng sa St. Mary kwa India le kwa the Devil's Tower kwa Amerika.

E ne e rile go le pele, fa a ribolola semmuso matlapa a mofuta o a a tlhomilweng kwa maemelong a difofane a Francistown rre Fitt a bolela gore lekala la Ditso Le Ditsa-Tlholego le le mo lephateng la gagwe le mo thulaganyong ya go baya dilo tse di farologanyeng tse di nang le bokao jwa ditso jaaka dikoloi tse di kgologolo le ditshwantsho mo mafelong a setshaba. O ne are maikaelelo a thulaganyo e ke go baya dilo tse fa setshaba se ka di bonang teng go di itumelela le go ithuta ka tsone.

Fa a tswa la gagwe, Ratoropo wa Francistown rre James Kgalajwe o ne a leboga ba Lekala La Ditso Le Ditsa-Tlholego mmogo le Lephata La Tikologo, Diphologolo Le Bojanala ka thuto e ba e fileng mabapi le mosola wa matlapa a, bogolo jang mo kgolong ya bojanala mo toropong ya Francistown. O supile gore fa e ne e se ka tshedimosetso ya go nna jalo, matlapa a a ka bo a ne a senngwa ka go bo a tsewa a sena mosola ope.

Pitse ya naga at Boteti Inspectorial Area

The road to Boteti is quite epic, we were all excited as we embarked on our journey to impart knowledge to students during our mobile museum trip. We left the capital city on the 8th June around 8am. When driving between Rakops and Kumaga we accidentally hit a donkey, but that was not enough to stop us on our tracks. Everyone was alright but unfortunately the donkey had taken its last breath. We continued with our trip after handing the matter over to the Police. We drove for an hour to our first school Baipidi Primary School. June is the heart of winter so we were trying to adjust to extreme weather conditions, some of us even caught a cold. However, the school went out of its way to make sure that our stay was comfortable. As we went from school to school we adjusted to the weather and our mission was easier to execute.

In every school we implemented the lower classes programme for standards one to four by displaying all the artefacts varying from different tools to attire of various ethnic groups in Botswana. This was meant to create awareness on cultural heritage, to ensure that the young ones embrace the different ethnic groups in the country as well as their own. The main aim of the programme is to enhance the lower classes cultural studies syllabus. The objects include; the Hambukushu knife themende and the Bayeyi ceremonial knive tjeka. Other objects that fascinated students are the Herero sour milk containers known as the *onjupa* and the *orutuo*. The latter is used as a funnel to pour the milk into the *onjupa* which is a calabash. Kalanga leather sack for storing sorghum *womo* and Kalanga traditional cow-horn container *chibako* in which they store tobacco dekwe.

Students took turns to use their senses of touch, smell and sight to interact with the objects and make comparisons with their own cultural objects. The differences in objects are mainly due to material for making them because of the availability of the material in their area as well as traditional cultural influences because of the originality of ethnic groups.

This was followed by playing traditional games like hide and seek boleke mampatile, traditional dance, morabaraba and recitals of poems and folk tales. A standard four student of Toromoja Primary School enthusiastically recited this poem for us:

Mma mpha kapari ya setso
Kapari yone ya ga Lowe
Ke raya ere tsalwang re e fitlhela fa
Kapari ya go ntsha mmele godimo
Kapesa dikhularong,
felong go sa bonwabonweng
Tlalo ja namane yoo rre
Nnaka ntlele foo kee beye magetleng serame se tshabe
Ke dire le motseto, moswapo ke o bofe
Hutshe ya letlalo la phokoje
Tlhogong gone ke tlotlomale
Dinaong mpeetshane phate ya kgomo etsho ke gate

The lower classes programme was concluded by showing documentary videos on conservation of wildlife and climate change. During this trip, nineteen schools were covered. We got positive feedback from all our hosts including parents who came to take part in the programme. Parents' involvement proves to be very important as it affords us the opportunity to validate information on specific cultural practices and objects and makes comparisons and interactions meaningful.

Keep watching the road - Pitse ya Naga mo maotwaneng E Etla!

Ene e le leeto le le itumedisang jaaka re ne re ya kwa kgaolong ya Boteti go ya go kgaogana kitso le baithuti ka lenaneo la Pitse Ya Naga Mo Maotwaneng.Re emeletse mo toropo-kgolo ka nako ya boferabobobedi ka kgwedi ya Seetebosigo e le malatsi a le borobabobedi. Fa re tsamaya fa gare ga Rakops le Kumaga, re ne ra nna le kotsi ka re ne ra thula tonki, mme seo sa seka sa re kgoba marapo. Re ne ra tswelela le mosepele wa rona morago ga go begela mapodisi ka kotsi eo. Re ne ra tsamaya sebaka sa oura go ya go fitlha kwa sekolong se re neng re ya go simolola kwa go sone, e leng se se botlana sa Baipidi. Ka jaana ka kgwedi ya Seetebosigo mariga a a bo a gaketse, re ne re lwantshana le sone seemo sa bosa se se sa iketlang mme bangwe ba rona ebile re tshwerwe ke sehuba. Badiri ba sekolo seo ba ne ba dira gotlhe mo ba ka go kgonang go dira gore re ikutlwe re amogelesegile ka bothito jo bogolo.Fa leeto le ntse le tsweletse, re fetela kwa dikolong tse di latelang, re ne ra ikutlwa re nonofile go ka emelana le sone semo sa bosa ebile go le motlhofo go tsweledisa thomo ya rona.

Mo dikolong tsotlhe tse re di etetseng re ne re simolola ka go supegetsa baithuti disupiwa tse di farologanyeng tse di neng di akaretsa didirisiwa le kapari tsa batho ba merafe e e farologanyeng ya mono Botswana. Maikaelelo a seo e ne e le go lemotsha bana ka botlhokwa jwa ngwao le go netefatsa gore ba amogela dingwao tse di farologanyeng tse di fitlhelwang mo lefatsheng leno. Dingwe tsa didirisiwa tse re neng re di ba supegetsa di akaretsa dithipa tsa Sembukushu le Seyei ebong themende le tjeke. Dithipa tse ka gale di tlogela bontsi jwa baithuti le barutabana ba gakgametse, di ba kgatlhile thata ka ba ne ba ise ba ke ba di bone le go di utlwalela go le pele. Ka jalo gantsi ba kgatlhegela go di tshwara le go di bona di le gaufi.

Tse dingwe didirisiwa tse di neng tsa kgatlha baithuti thata ke lekuka la Seherero le bidiwang Ujopa, le go tsenngwang madila mo go lone, mmogo le sedirisiwa se go tshelwang madila a mo lekukeng le ka sone e leng Mbako.Sedirisiwa se sengwe se ebileng se sa itsege thata ke sa Sekalannga se go tsenngwang motsoko o o bidiwang Dekwe mo go sone. Gape bana ba ne ba itumelela go sikara kgetsi e e dirilweng ka letlalo e e dirisiwang ke Bakalanga go beela thobo mo go yone.Ba ne ba itumetse thata go ithuta ka merafe e mengwe.

Morago go ne ga latela legato le lengwe la dithuto e leng la go ba ruta ka yone ngwao le dikarolo tsa yone tse di farologanyeng, mmogo le ka fa e ka somarelwang ka teng. Gape ba ne ba rutwa le ka fa ba ka somarelang ditsa-tlholego ka teng. Re ne ra tlhomamisa gore dithuto tse e nna tse baithuti ba tsayang karolo ka botlalo, gore ba seka ba latlhegelwa ke kgatlhego mo go se ba se rutwang. Re ne ra ba botsa dipotso mme ra reetsa ka kgakgamalo jaaka ba ne ba araba ka matsetseleko a re neng re sa a solofela.

Morago re ne ra tshameka le bone metshameko ya setso jaaka boleke mmampatile, mmino wa Setswana, morabaraba, maboko le mainane jalo jalo. Mongwe wa baithuti ba sekolo se se botlana sa Toromoja one a boka ka matlhagatlhaga le bokgabane jo bo neng jwa re tlogela re akabetse. O bile a re kwalela leboko leo, le le balegang jaana.

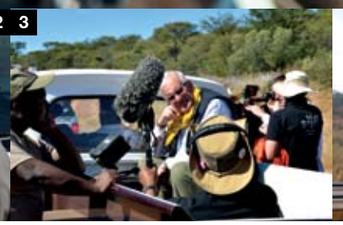

Mma mpha kapari ya setso
Kapari yone ya ga Lowe
Ke raya ere tsalwang re e fitlhela fa
Kapari ya go ntsha mmele godimo
Kapesa dikhularong,
felong go sa bonwabonweng
Tlalo ja namane yoo rre
Nnaka ntlele foo kee beye magetleng serame se tshabe
Ke dire le motseto, moswapo ke o bofe
Hutshe ya letlalo la phokoje
Tlhogong gone ke tlotlomale
Dinaong mpeetshane phate ya kgomo etsho ke gate

Morago ga tseo re ne ra ba tshamekela setshwantsho sa motshikhinyego se se supang tshomarelo ditsa-tlholego mmogo le phetogo ya seemo sa lewapi. E ke nngwe ya dikgang tse di seng motlhofo go di tlhaloganya mme ba tle ba di tlhaloganye botoka fa di supiwa jaaka ditshwantsho tsa motshikinyego. Kgwetlho e e tleng e nne teng ke gore gantsi re fitlhela e le gore bontsi jwa bana mo dikgaolong tse di kgakala le ditlamelo ba a bo ba ne ba ntse ba sa kgone go bona ditshwantsho tsa motshikinyego go ithuta ka tsone.

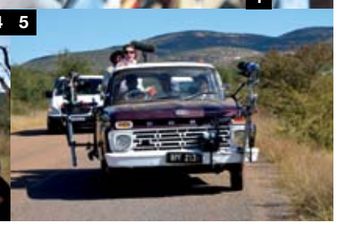

Mo dikolong tse di masome mabedi tse re neng re tshwanetse go di etela, re ne ra kgona go fitlha mo go di le lesome le boferabongwe. Re ne ra seka ra kgona go etela sekolo se le sengwe fela ka jaana go ne go tlhalositswe gore go dira jalo go ne go ka kgoreletsa lenaneo la ditlhatlhobo mo go sone. Kwa bokhutlong re ne re itumeletse sebaka se re nnileng le sone go ruta baithuti ka botlhokwa jwa tshomarelo ngwao. Mo dikolong tse tsotlhe, barutabana le batsadi ba ne ba re fa kgotlhatso le kemo-nokeng mme ra ba leboga thata. Se se neng se itumedisa le go feta ke gore batsadi ba bile ba ne ba neela bana dingwe tsa didirisiwa tse go neng go tlhokafala gore ba e go rutwa ka tsone. Se se ne sa re supegetsa gore lenaneo le la Pitse-Ya –Naga Mo Maotwaneng le amogelesega ka matsogo oo-mabedi mo dikolong mme re emetse ka tlhologelelo leeto le le latelang ka lenaneo le.

THE FOURTHESTATE COVERS MANDELA'S GUN DOCUMENTARY PROJECT BY PHILLIP SEGADIKA

This is a documentary film on the historical events concerning a Markarov gun given to former President Nelson Mandela just weeks before his arrest and incarceration for 27 years. The gun was given to him by the Emperor Haile Selassie of Ethiopia in 1962 after travelling there for military training. The story is about the then "youthful firebrand, a member of a liberation struggle who, like many, dedicated his life to bring down a heinous tyranny regime". The story is about how Mandela, in a few months inspired members of the ANC to win freedom, dignity and justice for all South Africans.

Nelson Mandela was no ordinary human being. He is considered one of the greatest human beings of his times as he managed to inspire his people to rise above the clutches of human indignity in the form of the apartheid regime. Yet he surprised many when he preached the spirit of re-conciliation across his rainbow nation when he became the first democratically elected black president in 1994.

It was thus not surprising when members of the Fourth Estate (Newspaper) covered "Mandela's Gun" Film production from a different perspective. Different Headlines were splashed across different Newspapers in an endeavor to breakdown the story behind the digging that was taking place at the late Fish Keitseng's home. Some articles suggested that "a group of white South Africans were digging at Fish Keitseng's monument to try to recover Mandela's treasure", while others opined that a " cache of weapons from the Keitseng's safe house has been excavated". Whatever the case, "Mandela's Gun" Film production captured the imagination of members of the Press here at home.

Freedom fighter laid to rest

GABORONE - Former BNF councillor and African National Congress (ANC) stalwart Nwasiele Thatayaone Fish Keitseng was buried in Gaborone in a ceremony attended by thousands of mourners among them four BNF MPs and ANC and Botswana Congress Party (BCP) officials.

Keitseng (62) died on March 28 after a long illness.

He was widely known as one of the "Rivonia Trialists" along with his illustrious friend former South African President Nelson Mandela.

Several messages of condolences from Presidents Festus Mogae, South

unbending commitment to justice, made an extra-ordinary contribution to freedom in Africa."

The speeches described him as a "humble and "fearless' and progressive man who was at home anywhere in Africa regardless of the colonial boundaries, who could not fold his arms and watch while his fellow South Africans were being persecuted.

South Africa's High Commissioner Komane, who read President Mbeki's condolences said Keitseng died when he was just about to be given an Award for his contribution towards the liberation of Southern Africa.

A BNF representative Jerry Raotswhwane said Keitseng had an admirable track record to which should be envied by all especially the youth. Keitseng was a BNF stalwart who believed in the future of the party.

Former BNF leader Kenneth Koma, in a speech read on his behalf by BNF deputy executive secretary general Kathleen Letsabiso described Keitseng as a "fearless" freedom fighter.

Although he was one of the founding fathers of the BNF, he was never a position-seeker and always contended to serve the party behind the scenes, he said.

Koma said he hoped the ANC government could change Keitseng's home at Peleng in Lobatse as a symbol of his contribution against Apartheid injustice.

After being deported to his native home Botswana, from South Africa for his political activities, his home in Lobatse was used as 'pipeline' through Botswana, an operation which ultimately involved the movement of thousands of ANC cadres, including President Mandela, and the current President Mbeki in transit south of Botswana.

Fish Keitseng was also an executive member of the Botswana People's Party (BPP) and the Botswana Independence Party (BIP) before helping Dr Koma to launch the BNF.

He was a staunch member of the BNF until his death.

Keitseng is survived by his wife

Veteran pan-Africanist laid to rest

No ammunition found at Fish Keitseng monument

By Thandy Tebogo

GABORONE - Contrary to recent media reports, no ammunition was excavated from the Fish Keitseng monument in Lobatse.

Chief curator with the National Museum and Art Gallery, Phillip Segadika told BOPA in an interview Tuesday that while they found some metal pieces at the site, none of them was ammunition material even in preliminary analysis.

Local media reported recently that the Keitseng monument, famously known as the Botswana abode for former and late South African president Nelson Mandela was being searched for ammunition purportedly used by Mandela in the 1960's.

Segadika however explained that the excavation was merely an attempt at re-enacting Mandela's life by international film maker Dearheart productions. The British film-maker had asked to do preliminary research for a planned Mandela film in Botswana.

He said the film would revolve around Mandela's gun which Emperor Haille Selhessie of Ethiopia presented to him in 1962.

He said by shooting the film at the actual location in Lobatse, Dearheart would not only be authenticating their movie but would also give publicity to the Keitseng monument.

Segadika noted that while it was true Mandela once hid some ammunition at the monument, the equipment was taken by another freedom stalwart for Mwiba within two

"We found a two cent coin dated 1961, and with the inscription, 'unity is strength'. It was in Dutch and English."

Segadika said they also found plastic bags written 'Bechuanaland Protectorate' dating back from the 1960's. In addition they found shoes, broken bottles of wine and beer, empty cans of canned food and charcoal.

Some of the plastics bags found bore the words 'Taste tee' showing just how far Botswana come with the brand.

At the time both pounds and kilogrammes were used as measures of weight.

Segadika further said it was important to excavate as that was essential for purposes of reconstruction of historical or archeological timelines.

Thus more exploration on the history of Lobatse was needed to give the town due credit. It was in Lobatse that Botswana's capital city moved from Mafikeng, and where the colonial Parliament sat. BOPA

Heroic Send-Off For Apartheid Soldier

By Lebogang Maakaki

Mpho said Keitseng's family should be proud about the sacrifice he made in the liberation struggle.

"He was fearless. He did not know the word fear. He was a hero between South Africa and Botswana," He said he used to admire Keitseng's history especially when confronted by the apartheid police. The rumour going around was that although Keitseng was not an intellectual, he contributed to the liberation struggle in a meaningful

1952 during the year of the Defiance Campaign. He said during their time, ANC members were humble like Keitseng.

Dingake who was once incarcerated at Robben Island, described the former president of the ANC Nelson Mandela, current President Thabo Mbeki, Ministers for Medicine, Romeo Kantlo from South Africa during apartheid.

"Many of us say that with the well-deserved hype about Comrade Nelson Mandela, many forget that role the late Comrade Oliver Tambo (OR) played to build such a powerful organisation during difficult times before, and after Comrade Mandela's arrest. But we also want to emphasise that without your commitment, dedication, selflessly and sacrificial you made, even the great OR would not have managed to pull us through," he declared.

Keitseng was born in Kanye in 1924. He was an ordinary man with, as he put it, "no extraordinary talents to justify, made an extraordinary contribution to freedom in Africa."

He was a teacher by profession, he helped to establish and successfully run, an underground transit system for the ANC that secured the movement of refugees through Botswana. The operation, assisted thousands of freedom fighters from the clutches of the apartheid regime. This in turn allowed the ANC to establish itself in exile as a liberation movement capable of arduously assuming state power.

Mandela's treasure worth millions unearthed at Lobatse

CONTINUED FROM PG 3

Sources said there was confusion in Lobatse as local authorities at one point ordered the archeologists and film makers to stop digging.
